Table of Contents

Executive Summary

Chapter 1. Taking a Broader View	1
Purpose and Organization of This Atlas	2
Landscape Ecology and the Analysis of Broad-Scale Environmental Condition	3
What are Landscape Indicators and How Do They Help to Understand Environmental Conditions?	4
How Were the Landscape Indicators Selected?	6
How Were the Landscape Indicators Measured?	10
How Were the Landscape Indicators Summarized?	12
Chapter 2. The National Context	13
Data Sources	13
How to Read the Maps and Charts in this Report	16
Human Use Patterns	17
Forest Patterns	19
Patterns Affecting Water Quality	22
National Context Summary	24
Chapter 3. The Tensas River Basin Landscape Assessment	25
Biophysical Setting	25
Land Cover	27
Humans in the Landscape	28
Population Density and Change	28
Human Use Index	28
Roads	29
Roads Along Streams	30
Forests in the Landscapes	30
Percentage of Forest Cover	30
Forest Fragmentation	33
Percent of the Watershed in the Largest Forest Patch	33
Detailed Forest Analysis of the Tensas River Basin, 1970s to 1990s	34
Vegetation Change	36
Vegetation Change by Subwatershed	37
Forest and Crop Land Along Streams	38
Water and the Landscape	40
Watershed Indicators	41
Riparian Analysis	42
Vegetation Change Along the Tensas River Reach	43
Backswamp Area Analysis	43
Soil Erodibility Analysis	45
Wetland Restoration Analysis	46
Chapter 4. Water Quality	55
Nitrogen and Phosphorus Export to Streams	62
Chapter 5. Comments and Recommendations	63
Appendix	66
