TITLE 44, SECTION 1333 OF THE UNITED STATES CODE

- (a) The Librarian of Congress shall prepare compilations of pertinent excerpts, bibliographical references, and other appropriate materials relating to:
- (1) the subject selected annually by the National University Extension Association as the national high school debate topic and
 - (2) the subject selected annually by the American Speech Association as the national college debate topic.

In preparing the compilations the Librarian shall include materials which in his judgment are representative of, and give equal emphasis to, the opposing points of view on the respective topics.

- (b) The compilations on the high school debate topics shall be printed as Senate documents and the compilations on the college debate topics shall be printed as House of Representative documents, the cost of which shall be charged to the congressional allotment for printing and binding. Additional copies may be printed in the quantities and distributed in the manner the Joint Committee on Printing directs.

(Pub. L. 90-620, Oct. 22, 1968, 82 Stat. 1270.)

Foreword

The 2003-2004 high school debate topic is “Resolved: That the United States Federal Government Should Establish an Ocean Policy Substantially Increasing Protection of Marine Natural Resources.”

In compliance with Title 44, Section 1333 of the United States Code, the Congressional Research Service (CRS) of the Library of Congress prepared this bibliography to assist high school debaters in researching the topic. This bibliography is intended to assist debaters in the identification of further references and resources on the topic. In selecting items and websites for this manual, the CRS has sampled a wide spectrum of opinions reflected in the current literature on this issue. No preference for any policy is indicated by the selection or positioning of articles or websites cited, nor is CRS disapproval of any policy or article to be inferred from its omission.

Some of the U.S. government documents listed in this bibliography may be found in U.S. government depository libraries, which can be identified by local public or college libraries. The Library of Congress cannot distribute copies of these or other materials to debaters. This manual is also available on the GPO Access Home Page on the World Wide Web at <http://www.access.gpo.gov>.

The bibliography was prepared by Julie Jennings, Information Resources Librarian, Office of Information Resources Management, CRS under the direction of Sherry B. Shapiro, Information Resource Specialist. Production was made possible by Ann Eschete, Information Resources Assistant.

Good luck to each debater in researching, preparing and presenting arguments on this year's topic.

Daniel P. Mulhollan, Director
Congressional Research Service

RESOLVED: THAT THE UNITED STATES FEDERAL GOVERNMENT SHOULD
ESTABLISH AN OCEAN POLICY SUBSTANTIALLY INCREASING PROTECTION OF
MARINE NATURAL RESOURCES

AN ANNOTATED BIBLIOGRAPHY ON THE
2003-2004 HIGH SCHOOL DEBATE TOPIC

Julie Jennings
Information Resources Librarian
Office of Information Resources Management
Congressional Research Service

With the assistance of
Ann Eschete,
Information Resources Assistant

November 2003

Introduction

The 2003-2004 high school debate topic is “Resolved: That the United States Federal Government Should Establish an Ocean Policy Substantially Increasing Protection of Marine Natural Resources.”

Human interest in the ocean is as old as human beings themselves. One of the most important works written on the subject first appeared in 1608 (Hugo Grotius' *Mare Liberum*). From that time up to the present day, how to best govern, manage, use, and preserve the sea has been a topic of intense debate. Consequently, the amount of written material available is very extensive.

This selective bibliography focuses only on the past 100 years of ocean policy, concentrating on the United States. It is intended to help debaters identify resources and references on the debate topic. It lists citations to books, congressional publications, magazine and journal articles, and websites on the Internet. The manual is divided into eight subtopics: general, aquaculture/mariculture, coastal management, fisheries management, marine mammal protection, marine pollution, marine protected area management, and ocean politics and policy. Debaters may look for these and related resources at their local high school, research, government depository, and public libraries.

Debaters may also wish to visit the speech and debate websites of the following:

the National Federation of State High School Associations;
<http://www.nfhs.org/>

the University of Kansas Government Documents Library;
<http://www2.lib.ku.edu/%7Epublications/debate03.htm>

Debate Central
<http://www.debate-central.org>

The above websites contain many links to documents and to websites of organizations active in the privacy debate.

Summary

The purpose of the debate manual is to provide students with a brief overview of information concerning the 2003-2004 national high school debate topic, “**Resolved: That the United States Federal Government Should Establish an Ocean Policy Substantially Increasing Protection of Marine Natural Resources.**”

This bibliography includes citations to books, congressional publications, and magazine and journal articles. This compilation is not intended to supply complete coverage of the topic. Further research on marine natural resources in general, as well as each suggested subtopic, can be conducted at high school, research, depository, and public libraries.

Databases available through the Congressional Research Service's Office of Information Resources Management were used to prepare this bibliography. The manual is divided into eight subtopics: general, aquaculture/mariculture, coastal management, fisheries management, marine mammal protection, marine pollution, marine protected area management, and ocean politics and policy.

Sustainable Ocean Governance: A Geographical Perspective. New York: Routledge, 2000. 296 pgs.

Wang, James C.

Handbook on Ocean Politics and Law. New York: Greenwood Press, 1992. 592 pgs.

This comprehensive handbook provides background information and analysis on the full range of contemporary ocean use issues, including the development of ocean law, the evolving uses of oceans, data on living and non-living ocean resources, the environmental impact of pollution, and competing national claims over ocean exploration.

Wilder, Robert Jay.

Listening to the Sea: The Politics of Improving Environmental Protection. Pittsburgh, PA: University of Pittsburgh Press, 1998. 269 pgs.

Marine law and ocean policy written from a political science viewpoint. Includes an inclusive review of historical national and international ocean policies (including laws) followed by an examination of how ocean policy can become more integrated and holistic.

Wilder, Robert Jay.

The Three-mile territorial sea: its origins and implications for contemporary offshore federalism. *Virginia Journal of International Law*, v. 32 (1992): 681-746.

Internet Sites

United States Commission on Ocean Policy

Available at: [<http://www.oceancommission.gov/>]

"U.S. Commission on Ocean Policy is required to establish findings and make recommendations to the President and Congress for a coordinated and comprehensive national ocean policy. The new policy will address a broad range of issues, from the stewardship of marine resources and pollution prevention to enhancing and supporting marine science, commerce and transportation. The Commission's final recommendations to the President and Congress will be delivered in November 2003."

Center for the Study of Marine Policy (University of Delaware)

Available at: [<http://www.udel.edu/CMS/csmp/>]

"The Center conducts a broad range of research and policy studies emphasizing the application of policy analysis and other analytical tools to the management of ocean and coastal areas on national, regional, and global scales. A major emphasis of the Center has been on integrated coastal and ocean management, particularly on the development of governance approaches that move beyond present single- sector approaches toward multiple-use management regimes."

Pew Ocean Commissions

Available at: [<http://www.pewoceans.org/>]

The Pew Oceans Commission is an independent group of American leaders conducting a national dialogue on the policies needed to restore and protect living marine resources in U.S. waters. After reviewing the best scientific information available and speaking with people from around the country, the Commission made its formal recommendations to Congress and the nation in June 2003.

National Geographic

Available at: [<http://news.nationalgeographic.com/oceans.html>]

A collection of stories about the oceans and its inhabitants.

Natural Resources Defense Council

Available at: [<http://www.nrdc.org/water/oceans/default.asp>]

"With a range of strategies, NRDC seeks to preserve and restore the extraordinary diversity of ocean life and the quality of coastal waters. For nine years, we have published critical information and garnered extensive media coverage about beach pollution, leading to increased beachwater monitoring and public notification of pollution problems. We are promoting the designation of "wilderness waters," ecologically sensitive ocean areas afforded the kind of protection we've long given to special places on land. We work to ban offshore oil and gas drilling in sensitive coastal areas. And we actively promote sound coastal zone management on both coasts."

MareNet, the Worldwide Network of Marine Research Institutions and Documents

Available at : [<http://www.marenet.de/MareNet/marenet.html>]

"MareNet is a distributed information service. It uses the information which can be found on the web-servers of the worldwide distributed marine research institutions and departments of universities seen as a distributed database. The restriction to those

professional institutions which are accepted by the learned societies ensure the quality and relevance of the offered information. MareNet serves only professional specific information posted by the scientists themselves. Therefore MareNet complements the services of commercial providers."

Virginia Institute of Marine Sciences

Available at: [<http://www.vims.edu/dcop/>]

"The Department of Coastal and Ocean Policy's interdisciplinary research covers the spectrum of basic and applied science on coastal resources. Scientists work closely with estuarine and marine industries, the public, and state and federal agencies to integrate sound scientific principles into the management of coastal resources. Research in the Department is conducted by both faculty and professional scientific staff. "

World Resources Institute. Coastal and Marine Resources.

Available at: [<http://www.wri.org/wri/biodiv/marihome.html>]

"World Resources Institute (WRI) is an environmental think tank that goes beyond research to find practical ways to protect the earth and improve people's lives."

WorldWatch Institute

Available at: [<http://www.worldwatch.org/>]

"Founded by Lester Brown in 1974, the Worldwatch Institute offers a unique blend of interdisciplinary research, global focus, and accessible writing that has made it a leading source of information on the interactions among key environmental, social, and economic trends. Our work revolves around the transition to an environmentally sustainable and socially just society—and how to achieve it."

National Oceanic and Atmospheric Administration (NOAA)

Available at: [<http://www.noaa.gov/>]

U.S. Environmental Protection Agency. Oceans, Coasts and Estuaries

Available at: [<http://www.epa.gov/owow/oceans/>]

Information on publications, partnerships, and regulatory programs designed to strengthen the health of the oceans.

International Organization Websites

Food and Agriculture Organization (FAO) of the United Nations. Fisheries Department

Available at: [http://www.fao.org/fi/default_all.asp]

"The mission of the Fisheries Department of FAO is to facilitate and secure the long-term sustainable development and utilization of the world's fisheries and aquaculture."

United Nations Environmental Program. Marine and Coastal Areas

Available at: [<http://www.unep.org/themes/marine/>]

A collection of data, maps, and development trends regarding the world's oceans.

UNESCO (United Nations Education, Scientific, and Cultural Organization). Ocean Portal.

Available at : [<http://www.oceanportal.org/>]

"Ocean Portal is a high-level directory of Ocean Data and Information related web sites. Its objective is to help scientists and other ocean experts in locating such data & information."

Selected Laws, Treaties, and Conventions Related to Ocean Management and/or Conservation

Treaty of Washington between U.S. and Great Britain (1892)
 North Pacific Sealing Convention (1911)
 Oil Protection Act of 1924
 1945 Truman Proclamation on the Continental Shelf
 1945 Truman Proclamation on Fisheries
 International convention for the regulation of whaling of 1946
 Submerged Lands Act of 1953
 Outer Continental Shelf Lands Act of 1953
 Saltonstall-Kennedy Act of 1954
 United Nations Convention on the Law of the Sea in 1958
 United Nations Convention on the Law of the Sea in 1960
 Commercial Fisheries and Research Development Act of 1964
 Anadromous Fish Conservation Act of 1965
 Marine Resources and Engineering Development Act (1966)
 National Environmental Policy Act of 1969
 Coastal Zone Management Act of 1972
 Federal Water Pollution Control Act of 1972
 Marine Mammal Protection Act of 1972
 Marine Protection, Research, and Sanctuaries Act (1972)
 Oslo Convention of 1972
 Endangered Species Act of 1973
 National Marine Fisheries Act of 1976
 Magnuson-Stevens Fishery Conservation and Management Act of 1976
 Outer Continental Shelf Lands Act Amendments of 1978
 United Nations Convention on the Law of the Sea in 1982
 1983 Reagan Proclamation of the Exclusive Economic Zone
 1988 Reagan Territorial Sea Proclamation
 Ocean dumping ban act (1988)
 U.S. Oil Pollution Act of 1990
 United Nations Conference on Environment and Development of 1992 (Rio Conference)
 Sustainable Fisheries Act of 1996
 National Aquaculture Policy, Planning, and Development Act (1998)
 Oceans Act of 2000
 Executive Order 13158, Marine Protected Areas (May 2000)

GAO

United States General Accounting Office.

Information On Ocean Disposal Of Municipal And Industrial Waste. Washington, DC: U.S. General Accounting Office, May 18, 1983. 48 pgs.

Available on the Internet at: [<http://161.203.16.4/d42t14/121441.pdf>]

This report examines the practice of dumping municipal sewage sludge into the ocean. The interest in this activity was based on economics, a lack of disposal alternatives, and the belief that ocean dumping is environmentally safer than other disposal methods.

United States General Accounting Office.

Marine Pollution: Progress Made to Reduce Marine Pollution by Cruise Ships, but Important Issues Remain. Washington, DC: U S General Accounting Office, February 2000. 75 pgs.

Available on the Internet at: [<http://www.gao.gov/new.items/rc00048.pdf>]

Officials from the Coast Guard, the Department of Justice, and the Center for Marine Conservation (a nongovernmental, science-based advocacy, research, and public education organization that monitors marine pollution issues) indicate that cruise ship companies are making progress toward changing a maritime "culture" that once permitted discharges of garbage and oil from ships before international standards and U.S. laws to control such discharges were adopted.

United States General Accounting Office.

The Law of the Sea Conference--Status of Issues, 1978. U.S. General Accounting Office. Washington, DC. March 9, 1979. 60 pgs.

Available on the Internet at: [<http://161.203.16.4/f0302/108788.pdf>]

An objective of the Law of the Sea negotiations has been to establish effective environmental protection against existing or potential sources of marine pollution.

United States General Accounting Office.

Need To Strengthen Coordination Of Ocean Pollution Research. Washington, DC: U.S. General Accounting Office, July 14, 1982. 22 pgs.

Available on the Internet at: [<http://161.203.16.4/d42t14/118934.pdf>]

A review to examine NOAA's implementation of the National Ocean Pollution Planning Act to discover if the Act had improved the coordination of Federal ocean pollution research development and monitoring.

United States General Accounting Office.

Ocean and Coastal Activities: Information on Federal Funding. Washington, DC: U S General Accounting Office. August 11, 2003. 27 p.

Available on the Internet at: [<http://www.gao.gov/new.items/d031070r.pdf>]

Selected Government Publications

The Marine Mammals Commission compendium of selected treaties, international agreements, and other relevant documents on marine resources, wildlife, and the environment: Second update. BOOK. 2000.

Contains the complete texts of international legal documents concluded between January 1, 1996 and December 31, 1998, plus several older documents not in the earlier compendiums. 1383 p. ISBN: 0-16-050688-3/stock number: 052-003-01487-4/\$70.50

Compilation of Water Pollution Control, Environmental Protection, and Related Laws, Volume 2, February 1998. BOOK. 1998.

Includes: Federal Water Pollution Control Act; Oil Pollution Act of 1990; Comprehensive Environmental Response, Compensation, and Liability Act of 1980 (Superfund); Superfund Amendments and Reauthorization Act of 1986 (SARA); Marine Protection, Research, and Sanctuaries Act of 1972, Titles 1 and 5; Act of March 3, 1899 (Rivers and Harbors Act), Sections 9-20; Act to Prevent Pollution From Ships; Coastal Zone Act Reauthorization Amendments of 1990, selected provisions; and Safe Drinking Water Act Amendments of 1996, selected provisions. 567 p. (ISBN: 0-16-056177-9)/ Stock Number: 052-070-07160-5/\$32.00.

EPA Action Plan for Beaches and Recreational Waters: Reducing Exposures to Waterborne Pathogens. BOOK. 1999.

Identifies EPA's multi-year strategy for monitoring recreational water quality and communicating public health risks associated with potentially pathogen-contaminated recreational rivers, lakes, and ocean beaches. 27 p. Stock Number: 055-000-00623-7 / \$3.75.

Fisheries of the United States . . .

Contains preliminary reports on commercial and recreational fisheries of the United States with catches in both the United States and foreign Exclusive Economic Zones (EEZ). Provides timely answers to frequently asked questions. 2001. BOOK. 2002. 140 p. Stock Number: 003-020-00177-7 /\$21.00

Neptune's Table: A View of America's Ocean Fisheries. BOOK. 2002.

Describes America's fisheries resources and the Americans who fish for them. 220 p.; ill. ISBN: 0-16-051192-5/Stock Number: 003-020-00175-1/\$39.00.

Our Living Oceans: Report on the Status of United States Living Marine Resources, 1999. BOOK. 1999.

Reports on the biological health of fish and other marine plants and animals found in the United States. 311 p./Stock Number: 003-020-00171-8 /\$45.00.

Compilation of Selected Acts Concerning Marine Resources, Including Fisheries, With Amendments Through the End of the 107th Congress, April 2003. From the House Committee on Resources. 672 pgs. Stock Number: 052-070-07391-8/\$50.00.
