#### I.A.: OVERVIEW BY10

# Descriptive Information BY10

| Template Name   | BY2010  |
|---|---|
| Investment Name   | OCFO - DOLAR\$ System Maintenance   |
| Investment Revision Number                                | 8   |
| Is this investment a consolidated business case?          | No  |
| Point of Contact  | Clark, Patricia   |
| Revision Comment  |   |
| Date of Submission  | 4/10/2009   |
| Agency  | Department of Labor   |
| Bureau  | DM - OCFO   |
| Name of this Capital Asset                                | OCFO - DOLAR\$ System Maintenance   |
| Exhibit 53 Part   | IT Investments by Mission Area  |
| OMB Investment Type                                       | 01 - Major Investment   |
| OMB Exhibit 53 Major Mission Area                         | Financial Management  |
| What kind of investment will this be in this Budget Year? | Operations and Maintenance  |
| OMB Short Description                                     | DOLAR\$ is the DOL central accounting system of record since FY 1989. It is based on Keane's Federal Success, a COTS package purchased between 1985 and 1987. |

# Screening Questions BY10

Provide a brief summary and justification for this investment, including a brief description of how this closes in part or in whole an identified agency performance gap:

The DOL FY 2010 budget for the DOL legacy Department of Labor Accounting and Related Systems Maintenance(DOLAR\$) is the cost to operate and maintain DOLAR\$ to prepare DOL FY 2009 consolidated financial statements, comply with internal and external financial reporting requirements, and to provide financial management information to DOL stakeholders. The funds will be used to acquire IT contract support to operate and maintain the DOLAR\$ application and acquire mainframe host services.

FY2009 activities consist of on-going system operations and maintenance to operate DOLAR\$ and mainframe host services. As it will be the system of record longer than anticipated, the OCFO will have to execute DOL IT capital planning investment and security requirements to recertify the use of DOLAR\$ Centralized Core Accounting System. The transition strategy is to reduce unnecessary development in this legacy system. The OCFO governance, which oversees the request for enhancements, is responsible to ensure that the budget for software maintenance is adhered to and that enhancements are kept to a minimum.

The New Core Financial Management System (NCFMS) has been initiated to modernize the Department of Labor's (DOL) financial management system. NCFMS will replace the Department of Labor Accounting and Related Systems (DOLAR\$) with an approved Financial Management Line of Business Shared Service Provider (FMLoB SSP) using a commercial off-the-shelf (COTS) software package, Oracle Federal Financials.

The ability of DOLAR\$ to continue to meet both Federal and DOL requirements has been determined to be deficient and a performance gap exists between federal financial management requirements and DOLAR\$ capabilities. Its core financial management functions and data are distributed and/or duplicated across multiple systems which forces staff to process batches of financial information manually. Maintaining sound financial management practices using DOLAR\$ has become challenging with the growing emphasis for increased accountability, standardized processes, and reporting transparency.

In FY 2010, the New Core Financial Management System will become the DOL system of record for financial management. FY 2010 activities consist of operation of DOLAR\$ to prepare the FY 2009 DOL consolidated financial statements, close-out FY 2009 financial processes and retire DOLAR\$.

| Did the Agency's Executive/Investment Committee approve this request?   | Yes      |
|---|----------|
| If "yes," what was the date of this approval?   | 9/9/2008 |
| Did the Project Manager review this Exhibit?  | Yes      |
| Has the agency developed and/or promoted cost effective, energy efficient and environmentally sustainable techniques or practices for this project. | Yes      |
| Will this investment include electronic assets (including computers)?   | No       |

Is this investment for new construction or major retrofit of

REDACTED EXHIBIT 300 O&M BY10: OCFO - DOLAR\$ System Maintenance (Revision 8...

a Federal building or facility? (answer applicable to non-IT assets only)

| If "yes," | is an | <b>ESPC</b> | or | UESC | being | used | to | help | fund | this |
|-----------|-------|-------------|----|------|-------|------|----|------|------|------|
| investme  | ent?  |             |    |      |       |      |    |      |      |      |

If "yes," will this investment meet sustainable design

If "yes," is it designed to be 30% more energy efficient than relevant code?

Does this investment directly support one of the PMA initiatives?

If "yes," check all of the PMA initiatives that apply:

Is this investment for information technology?

Briefly and specifically describe for each selected how this asset directly supports the identified initiative(s)? (e.g. If E-Gov is selected, is it an approved shared service provider or federal financial requirements. As DOLAR\$ is the current the managing partner?

Yes

Financial Performance

On-going maintenance activities are needed to ensure DOLAR\$ is able to meet both internal DOL and external core financial system for DOL, maintenance activities will ensure that the system is able to identify and reduce erroneous payments as well as provide useful and reliable data in a timely fashion to DOL decision makers.

# IT Screening Questions BY10

If the answer to Question, "Is this investment for information technology?" was "Yes," complete this sub-section. If the answer is "No," do not answer this sub-section.

In addition to the Project/Program Manager FAC-P/PM or DAWIA certification level, what project management qualifications does the Project Manager have? (per CIO Council PM Guidance)

(1) Project manager has been validated as qualified for this investment

If this project produces information dissemination products N/A for the public, are these products published to the Internet in conformance with OMB Memorandum 05-04 and included in your agency inventory, schedules and priorities?

Are the records produced by this investment appropriately scheduled with the National Archives and Records Administration's approval?

Yes

## I.B.: SUMMARY OF SPENDING BY10

# Summary of Spending BY10

Provide the total estimated life-cycle cost for this investment by completing the following table. All amounts represent budget authority in thousands, and are rounded to three decimal places. Federal personnel costs should be included only in the row designated "Government FTE Cost," and should be excluded from the amounts shown for "Planning," "Full Acquisition," and "Operation/Maintenance." The "TOTAL" estimated annual cost of the investment is the sum of costs for "Planning," "Full Acquisition," and "Operation/Maintenance." For Federal buildings and facilities, life-cycle costs should include long term energy, environmental, decommissioning, and/or restoration costs. The costs associated with the entire life-cycle of the investment should be included in this report.

# I.F.: ENTERPRISE ARCHITECTURE (EA) BY10

#### General EA Questions BY10

In order to successfully address this area of the capital asset plan and business case, the investment must be included in the agency's EA and Capital Planning and Investment Control (CPIC) process and mapped to and supporting the FEA. The business case must demonstrate the relationship between the investment and the business, performance, data, services, application, and technology layers of the agency's EA.

Is this investment included in your agency's target enterprise Ye architecture?

If "no," please explain why this investment is not included in your agency's target enterprise architecture?

Is this investment included in the agency's EA Transition
Strategy?

Will the application leverage existing components and/or
applications across the Government (i.e., USA.gov, Pay.Gov, etc.)?

If "yes," please describe how the application will leverage existing components and/or applications across the Government.

# III.A.: RISK MANAGEMENT BY10

### Risk Management Plan BY10

Part III is completed only for investments identified as "Operation and Maintenance" (Steady State) in response to Part I above.

You should have performed a risk assessment during the early planning and initial concept phase of this investment's life-cycle, developed a risk-adjusted life-cycle cost estimate and a plan to eliminate, mitigate or manage risk, and be actively managing risk throughout the investment's life-cycle.

Does the investment have a Risk Management Plan?

Yes

What is the date of the risk management plan?

6/11/2008

#### III.B.: COST AND SCHEDULE PERFORMANCE BY10
