

THE GOING-TO-THE-SUN ROAD PROJECT

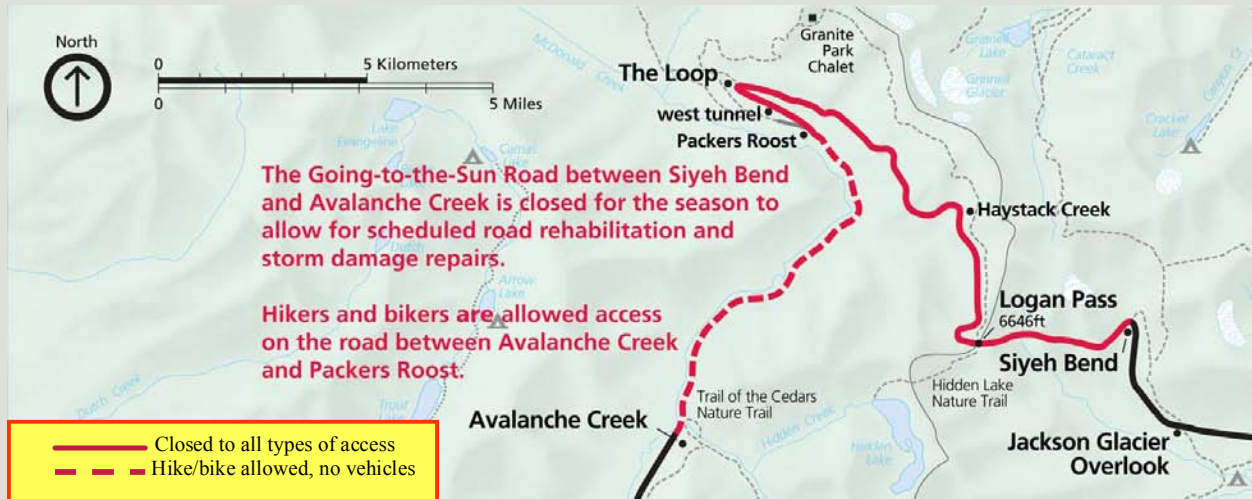

TRAVEL INFORMATION

For the week of October 15-21, 2007

SPECIAL NOTICE: The Logan Pass portion of the Going-to-the-Sun Road (Sun Road) has closed to all public use for the remainder of the fall season – between Avalanche and Siyeh Bend – to allow for repair of deferred storm damage east of Logan Pass and accelerated road rehabilitation west of Logan Pass. Hikers/bicyclists are allowed to travel between Avalanche and Packers Roost Road; however, *all* public use is prohibited between Packers Roost Road and Siyeh Bend. **Although necessary construction work is causing road closures, 30 miles of Sun Road remains open for vehicle traffic, weather permitting.** See details below:

EAST SIDE: Construction crews are continuing repairs (from November 2006 storm damage) deferred during summer months. The temporary bridge installed last spring has been removed. Work progresses on constructing a retaining wall in its place. This work must be finished before heavy rain and/or snow cause additional damage or loss of roadway. Recent weather conditions have not affected construction progress, and aggregate fill for the wall continues to be hauled over Logan Pass to the construction site. For visitor safety, all vehicles and hiker/bicyclists are restricted from entering the closure above Siyeh Bend. Other remaining permanent storm repairs will occur later this fall or next spring.

WEST SIDE: Scheduled road rehabilitation has accelerated between the west tunnel and approximately one mile above The Loop. Construction work, including rock scaling, rock bolting, and paving precludes *ALL* access through work zones. Pedestrians are allowed to hike/bike approximately six (6) miles beyond Avalanche to Packers Roost Road, however, there may be times when escorts are used in the paving zone. All visitor access beyond Packers Roost Road is prohibited. Please be aware of heavy truck hauling. A lack of adequate parking and other visitor services below the west tunnel dictates that west side fall parking be located at Avalanche where both parking and other visitor services are available throughout the fall.

PLEASE NOTE: The Glacier National Park's Sun Road shuttle system season ended September 3 and will begin again July 1, 2008. The Apgar Transit Center (ATC) is now closed. The Logan Pass Visitor Center has closed for the season. Popular trails are accessible from Siyeh Bend for fall hiking. Hiking trails are accessible throughout the Lake McDonald and St. Mary Valleys along with other areas of the park. Hiking and bicycling are allowed along the Sun Road between Avalanche and Packers Roost Road.

For More Information:

Information about the Going-to-the-Sun Road and related visitor service improvements are available at: www.GTSRProject.com or Glacier National Park Headquarters at **1-406-888-7800**.

Throughout Montana, **Dial 511;** **Select Option '5'** for Glacier National Park Tourist Information. Outside Montana and for other long-distance carriers, dial **1-800-226-7623**.
