SOURCES: National Center for Health Statistics and the U.S. Census Bureau.

NOTE: The period life expectancy at a given age for 2002 represents the average number of years of life remaining if a group of persons at that age were to experience the mortality rates for 2002 over the course of their remaining life.

- a. Probability of dying within one year.
b. Number of survivors out of 100,000 born alive.
