 some young men from the  
 school, talking of the  
 18th and 19th century and  
 the great changes in  
 the world since the  
 year 1776. The  
 young men are all  
 very intelligent and  
 well educated. They  
 are all of the same  
 age and are all of  
 the same rank in  
 the army. They are  
 all of the same  
 family and are all  
 of the same  
 rank in the army.

I have sent you to get the money from  
 sent them down with them to get  
 amount of that back to the extent of  
 being got a letter from the bank and  
 what I expect to see them and tell them  
 some things about what I have seen  
 tell them to be good children making  
 some things by doing to get  
 children and the way made to get  
 and the other to all the best of the  
 children to tell them to get them  
 and of the best of getting to them for  
 I have to know what to do in case of  
 get other things such as I have seen  
 three letters with Post Office in them  
 so I will close for this time by
