

with all applicable local, State and Federal laws in carrying out Commission funded programs/projects. For example, the partner must address NEPA and OSHA regulations, Federal auditing requirements, competitive procurement issues and so forth. As a result, the Commission will look to partners who have demonstrated both administrative and program/project management success.

- Adherence to the successful project management elements of time, budget and quality. Each of these factors is central to Denali Commission agreements with partners. The Commission wants to put our partners in a position of success in meeting the triple constraint of project management: deliver the project on time, on budget and completion of the full project scope in a cost effective manner. The challenge to the Commission is to allow sufficient flexibility for each partner to carry out the programs/projects within their own established methods while assuring confident project completion and meeting all requirements of applicable laws and regulations. For example, the AEA employs a project methodology that relies heavily on force account construction (locally sponsored government crews). AEA also uses construction contracting to a lesser degree. In short, each agreement with a partner organization must be tailored to fit their approach to program/project management.

Rural Energy Approach

AEA has employed a two-step approach to bulk fuel project funding that is strongly supported by the Commission. Starting at the top of the AEA priority list, projects are provided 35% design funds one or more years before being eligible for capital funding. This allows for more accurate project cost estimates, resolution of easement and land issues, development of agreements between various local parties in site selection and tank farm ownership/maintenance. This step also serves to filter projects that are not ready for construction, for one reason or another, from advancing to the second step of project funding. This two-step approach ensures that funding does not sit unused by projects that are not ready for construction. Once a project has resolved any obstacles at the 35% design stage, then they are eligible for capital funding.

AEA will reevaluate its priority list from time to time in order to factor in new information, particularly information from the statewide energy strategy. This reevaluation may result in some modification of the list. Funding priorities will also be subject to "readiness to proceed" considerations as described in part above.

Rural Primary Care Facilities Approach

In the past, communities constructed clinics based upon available grant funds (typically community development block grants of \$200,000 to \$500,000). Consequently clinic square footage was based upon available funding and not necessarily upon health care delivery service appropriate for the population and demographics of the community. Many clinics are therefore undersized. In FY99 the Commission allocated \$300,000 to undertake a needs

assessment for rural primary care facilities. The needs assessment was completed in October 2000 and included a database of primary health care facility needs statewide as well as a project prioritization methodology. The Commission's investments in rural health facilities is based on this needs assessment.

Job Training Strategy

The Commission realizes that proper and prudent investment in public infrastructure must include a component for training local residents to maintain and operate publicly funded infrastructure. The Commission further realizes that through its investment in public infrastructure, such as bulk fuel storage facilities, it is creating numerous jobs related to the construction of these facilities and must develop a strategy to ensure local residents are properly trained to receive these jobs.

The Denali Commission's Training Strategy creates a statewide system to increase the local employment rates in Alaskan communities through the development of skills necessary to construct, maintain, and operate public infrastructure.

The Commission has approved 10% of the FY00-FY03 funding for implementation of the Training Strategy. In FY04 the Commission received appropriation direction for funding from the U.S. Department of Labor. Through this funding the Commission ensures local residents are employed on public facility construction projects in their communities, while also protecting the Denali Commission's investment in infrastructure by ensuring local residents are properly trained in the operations and maintenance of completed facilities.

The Denali Commission's Training Strategy involves several components that create a statewide system for job training outreach, coordination and delivery in rural Alaska. The Commission has partnered with several statewide organizations that will perform the necessary functions that make up the Denali Commission's Training Strategy.

The Training Strategy provides the Denali Commission the flexibility for future investment in job training needs statewide. Currently the Commission's partners and the Denali Training Fund are focusing on jobs created by the construction of energy and health related projects. In the future, the Training Strategy will focus its efforts on other areas where the Commission is investing.

Economic Development Strategy

The Denali Commission in not a funding agency for traditional economic development activities. The Commission has a strategy that outlines the appropriate role of the Commission in the area of economic development. The strategy includes the following components:

- The Commission, where appropriate will play the role of convener, bringing potential economic development participants together to support projects that meet Commission Standards outlined in paragraph IV below.
- The Commission will act as a facilitator to assist in matching high priority, high potential public or private investment opportunities with available funding sources.

- The Commission will serve as a catalyst for identification and removal of unnecessary economic development barriers by government.

In Fiscal Year 2004, a statewide Economic Development Committee was established under the authority of the Denali Commission.

Regional Development Strategy

The Denali Commission encourages communities/tribes to build a local comprehensive plan and strategy, a component of which will be economic development. A comprehensive plan may also be referred to as a Development Strategy.

Communities are encouraged to work with regional organizations such as ARDOR's, Regional Non-Profit Corporations, Borough Governments and Regional for-profit organizations to develop comprehensive strategies of which economic development will be a component. Regional strategies should take into consideration existing regional planning and strategy efforts including, but not limited to, the efforts of the FAA, HUD, Alaska DOT, ANTHC, Alaska VSW, State Division of Public Health, Alaska Department of Public Safety, regional non-profits and others.

The Denali Commission encourages the State to assist with technical support and funding at the local and regional level to build local and regional development strategies. The Denali Commission also encourages State and Federal governments to utilize the local and regional development strategies when prioritizing projects in the state or in a region.

DEPARTMENT OF EDUCATION

Submission for OMB Review; Comment Request

AGENCY: Department of Education.

SUMMARY: The Leader, Regulatory Information Management Group, Office of the Chief Information Officer invites comments on the submission for OMB review as required by the Paperwork Reduction Act of 1995.

DATES: Interested persons are invited to submit comments on or before June 21, 2004.

ADDRESSES: Written comments should be addressed to the Office of Information and Regulatory Affairs, Attention: Alice Thaler, Desk Officer, Department of Education, Office of Management and Budget, 725 17th Street, NW., Room 10222, New Executive Office Building, Washington, DC 20503 or faxed to (202) 395-6974.

SUPPLEMENTARY INFORMATION: Section 3506 of the Paperwork Reduction Act of

1995 (44 U.S.C. Chapter 35) requires that the Office of Management and Budget (OMB) provide interested Federal agencies and the public an early opportunity to comment on information collection requests. OMB may amend or waive the requirement for public consultation to the extent that public participation in the approval process would defeat the purpose of the information collection, violate State or Federal law, or substantially interfere with any agency's ability to perform its statutory obligations. The Leader, Regulatory Information Management Group, Office of the Chief Information Officer, publishes that notice containing proposed information collection requests prior to submission of these requests to OMB. Each proposed information collection, grouped by office, contains the following: (1) Type of review requested, e.g., new, revision, extension, existing or reinstatement; (2) Title; (3) Summary of the collection; (4) Description of the need for, and proposed use of, the information; (5) Respondents and frequency of collection; and (6) Reporting and/or Recordkeeping burden. OMB invites public comment.

Dated: May 18, 2004.

Angela C. Arrington,

Leader, Regulatory Information Management Group, Office of the Chief Information Officer.

Office of Elementary and Secondary Education

Type of Review: Extension.

Title: Migrant Education Program (MEP) Proposed Regulations, Sections 200.83, 200.84, and 200.88.

Frequency: Biennially; One time.

Affected Public: State, Local, or Tribal Gov't, SEAs or LEAs; individuals or household.

Reporting and Recordkeeping Hour Burden:

Responses: 43. Burden Hours: 19,925.

Abstract: Section 200.83 of the regulations for Title I, Part C establish the minimum requirements an SEA must meet for development of a comprehensive needs assessment and plan for service delivery as required under section 1306(b) of the Elementary and Secondary Education Act (ESEA), as amended (Pub. L. 107-110). Section 200.84 of the regulations establish the minimum requirements the SEA must meet to implement the program evaluation required under section 1306(b) of the Elementary and Secondary Education Act (ESEA), as amended (Pub. L. 107-110). Section 200.84 of the regulations establish the minimum requirements the SEA must meet to implement the program

evaluation required under section 1304(c)(2) of ESEA. Section 200.88 of the regulations clarify that, for purposes of the MEP, only "supplemental" State or local funds that are used for programs specifically designed to meet the unique needs of migratory children can be excluded in terms of determining compliance with the "comparability" and "supplement, not supplant" provisions of the statute.
