Subject: From Tom Dorsey, President Dorsey, Wright & Assoc

Dear Sirs,

In your quest for information regarding advisers giving 401k advice I would have me come to Washington D. C. and discuss this with you. I am President of Dorsey, Wright & Assoc. www.dorseywright.com and advise the vast majority of professionals on Wall Street. My firm provides analysis to most brokerages in the U.S. and internationally. I have been in the business for 32 years and have written a number of books on the investment process. One book was Thriving as a Stockbroker in the 21st Century. I have some insight you might not have and would be very happy to share it with you in person. I'm in Richmond Va. and could come to Washington very easily. I am also someone you would want on your advisory panel. I don't say this self-servingly, as it would require more time on my part that I find hard to carve out as it is but this subject is important and I have insights you will not hear from others.

Please call 804-320-8511 or email tom@dorseywright.com.

Sincerely

Thomas J. Dorsey

President

Dorsey, Wright & Assoc.
