

Revised file naming system for certification memoranda.

The file naming system for certification memoranda has been simplified. The next update to NWSI 1-101 will include the following information:

The file name for a certification memorandum uses the “standard” directive file name and simply adds the word, “_cert.”

Examples:

- ▶ the file name for a certification memorandum for the second version of NWSPD 1-1, would be:

pd00101b_cert.pdf

- ▶ the file name for a certification memorandum for the third version of NWSI 10-501 would be:

pd01005001c_cert.pdf

- ▶ the file name for a certification memorandum for the first Western Region supplement filed with the third version of NWSI 10-501 would be:

pd01005001c062003a_cert.pdf
