### ALABAMA, Southeast

<b>ALZ065</b>	<b>Coffee</b>	05	1700EST 1715EST			0	0	10K	0	<b>High Wind</b>
Numerous downed trees and power lines countywide.										
<b>ALZ066&gt;067-069</b>	<b>Dale - Henry - Houston</b>	05	1715EST 1830EST			0	1	55K	0	<b>High Wind</b>
Estimated 50 to 60 mph straight-line winds downed numerous trees and power lines. A barn was blown over Alabama Highway 27 north of Echo. A person was seriously injured when a tree fell on a vehicle. Nine grass fires were sparked by fallen power lines in Ozark. One business' glass window was blown out in Abbeville. Numerous power outages reported.										
<b>Houston County</b> Dothan		19	1745EST			0	0			<b>Hail (1.75)</b>
Dime to golfball sized hail.										
<b>Geneva County</b> Ganer		20	1640EST 1655EST			0	0	15K		<b>Thunderstorm Wind</b>
Thunderstorm winds caused roof damage to a barn and residence. A tree was blown down along CR 16.										
<b>Houston County</b> Cottonwood		22	1845EST			0	0	20K		<b>Thunderstorm Wind</b>
Downed trees and roof damage just east of Cottonwood.										
<b>Geneva County</b> Slocomb		23	1500EST 1545EST	2.5	.2	0	0	150K		<b>Tornado (F1)</b>
Just east of CR 9 about 3.5 miles north of Slocomb, sheet metal off a hay barn was blown 1/4 mile to the ENE. One neighboring property sustained tree and roof damage, a destroyed shed and a damaged hay barn. One nearby mobile home lost its roof with tree limb damage within a one mile radius. Dime sized hail accompanied the storm. South of Slocomb, damage was more severe. Spotty tree damage began about 2 miles south along CR 85. The most damage occurred 1/4 mile east of the New Teamon Baptist Church. Several large oak trees were uprooted, extensive tree limb damage, a mobile home roof damaged, and a barn sustained roof and door damage. Two structures on CR 91 were damaged by fallen trees. One witness observed the tornado as 100 yards wide, moving from NW to SE. Hail fell prior to the tornado passage.										
<b>Dale County</b> Ariton		24	1650EST			0	0	2K		<b>Thunderstorm Wind</b>
Downed trees and power lines in Ariton.										

### ALABAMA, Southwest

<b>Choctaw County</b> Butler		05	1410CST 1412CST			0	0	15K		<b>Thunderstorm Wind (G52)</b>
Thunderstorm wind gusts to 60 MPH downed trees and power lines in the community.

## Storm Data and Unusual Weather Phenomena

June 1998

Location	Date	Time Local/ Standard	Path Length (Miles)	Path Width (Yards)	Number of Persons Killed	Number of Persons Injured	Estimated Damage Property	Estimated Damage Crops	Character of Storm
----------	------	----------------------------	---------------------------	--------------------------	--------------------------------	---------------------------------	---------------------------------	------------------------------	--------------------

### ALABAMA, Southwest

**Choctaw County**  
Countywide

05	2215CST 2245CST				0	0	300K		<b>Thunderstorm Wind (G70)</b>
----	--------------------	--	--	--	---	---	------	--	--------------------------------

A line of severe thunderstorms moved across the county from west to east between 1015 pm and 1045 pm. Trees and power lines were blown down throughout the county. The worst damage was in the south part of the county along County Road 3 near the small community of Aquilla. Trees blocked the county road for several hours and some of the trees fell on homes. No injuries were reported.

**Washington County**  
Countywide

05	2225CST 2310CST				0	0	1.5M		<b>Thunderstorm Wind (G80)</b>
----	--------------------	--	--	--	---	---	------	--	--------------------------------

A line of severe thunderstorms moved through the county between 1025 pm and 1110 pm. Trees and power lines were blown down throughout the county. The hardest hit area was Millry. County Road 34 leading into Millry from the west had trees down all along it as did most of the city of Millry. A spokesman for the local electric utility company said it was one of the worst storms in years in terms of damage and outages. Many of the trees fell onto houses and businesses causing extensive damage to the structures. It took more than a week for the county to get the trees off the highways and homes. No one was seriously injured during the storm.

**Clarke County**  
Countywide

05	2245CST 2340CST				0	0	500K		<b>Thunderstorm Wind (G70)</b>
----	--------------------	--	--	--	---	---	------	--	--------------------------------

A line of severe thunderstorms moved through the county from west to east between 1045 pm and 1140 pm. Trees and power lines were blown down throughout the county. Some of the trees fell onto homes and businesses in the Jackson area where nine buildings were damaged. Electricity was out across much of the county because of downed power lines. Around 200 am near Toddtown (between Jackson and Grove Hill) a family was using candles to light their home. Tragically the candle started a fire in the home and a wheelchair bound female was killed in the fire.

**Mobile County**  
Countywide

05 06	2250CST 0005CST				0	0	200K		<b>Thunderstorm Wind (G60)</b>
----------	--------------------	--	--	--	---	---	------	--	--------------------------------

A line of severe thunderstorms moved across the county between 1050 pm and 1205 am. Trees and power lines were blown down throughout the county. Most of the damage was in the north part of the county and around the regional airport. The National Weather Service office reported a wind gust of 58 mph. No major injuries were reported.

**Baldwin County**  
Countywide

05 06	2325CST 0015CST				0	0	100K		<b>Thunderstorm Wind (G60)</b>
----------	--------------------	--	--	--	---	---	------	--	--------------------------------

A line of severe thunderstorms moved through the county between 1125 pm and 1215 am. Trees and power lines were blown down throughout the county. The north and west part of the county had the most damage. Some of the trees fell on a couple of homes causing minor damage in the Bay Minette area. No major injuries were reported.

**Wilcox County**  
Countywide

05 06	2330CST 0025CST				0	0	50K		<b>Thunderstorm Wind (G60)</b>
----------	--------------------	--	--	--	---	---	-----	--	--------------------------------

A line of severe thunderstorms moved through the county between 1130 pm and 1225 am. Trees and power lines were blown down throughout the county. No major injuries were reported.

**Monroe County**  
Countywide

05 06	2330CST 1220CST				0	0	50K		<b>Thunderstorm Wind (G60)</b>
----------	--------------------	--	--	--	---	---	-----	--	--------------------------------

A line of severe thunderstorms moved through the county between 1130 pm and 1220 am. Trees and power lines were blown down throughout the county. No major injuries were reported.

**Conecuh County**  
Countywide

05 06	2340CST 0030CST				0	0	50K		<b>Thunderstorm Wind (G60)</b>
----------	--------------------	--	--	--	---	---	-----	--	--------------------------------

A line of severe thunderstorms moved through the county between 1140 pm and 1230 am. Trees and power lines were blown down throughout the county. The most damage was in the west part of the county. No injuries were reported.

**Escambia County**  
Countywide

05 06	2345CST 1230CST				0	0	50K		<b>Thunderstorm Wind (G60)</b>
----------	--------------------	--	--	--	---	---	-----	--	--------------------------------

A line of severe thunderstorms moved across the county between 1145 pm and 1230 am. Trees and power lines were blown down throughout the county. No injuries were reported.

**Covington County**  
Andalusia to  
River Falls

06	0030CST 0045CST				0	0	5K		<b>Thunderstorm Wind (G50)</b>
----	--------------------	--	--	--	---	---	----	--	--------------------------------

Trees and power lines were blown down between Andalusia and River Falls.

Quarter size hail was reported near Monroeville.

#### Covington County

Red Level	20	1422CST 1423CST			0	0			Hail (1.75)
-----------	----	--------------------	--	--	---	---	--	--	-------------

Golfball size hail was reported in the community.

#### Clarke County

Allen	20	1515CST 1517CST			0	0	3K		Thunderstorm Wind (G50)
-------	----	--------------------	--	--	---	---	----	--	-------------------------

High winds blew trees down in the community.

#### Escambia County

Atmore	21	1630CST 1631CST			0	0	6K		Hail (1.75)
--------	----	--------------------	--	--	---	---	----	--	-------------

State police reported golfball size hail in the community. High winds of around 50 mph also damaged a roof on a home.

#### ALZ061

Upper Mobile	22	1600CST 1700CST			1	0			Excessive Heat
--------------	----	--------------------	--	--	---	---	--	--	----------------

A three year old boy in Mobile was left inside a van at a day care center all day. He was not discovered until the late afternoon and had been dead for a few hours. He died of heat stroke. The outside temperatures in the Mobile area were in the low to middle 90s during the day with a heat index of around 105 degrees. Temperatures inside the closed van were estimated to be hotter than 160 degrees.

M3VE

#### ALZ059

Escambia	29	1500CST			1	0			Excessive Heat
----------	----	---------	--	--	---	---	--	--	----------------

A 68 year old female in Atmore was found dead in a closed up house with no air conditioner. It is unknown what time she died. Relatives found her body on a couch. The house was extremely hot. Autopsy reports indicated that one of the causes of her death was hypothermia. She also had heart trouble. The temperature across the area during that time was in the low to middle 90s with the heat index reaching around 100 degrees.
