

United States Environmental Protection Agency Office of Ground Water and Drinking Water Washington, DC 20460 UIC Federal Reporting System Part I: Permit Review and Issuance/ Wells in Area of Review (This information is solicited under the authority of the Safe Drinking Water Act)				I. Name and Address of Reporting Agency United States Environmental Protection Agency						
II. Date Prepared (month, day, year)		III. State Contact (name, telephone no.)		IV. Reporting Period (month, year) From October 1, 20 To						
Item				Class and Type of Injection Wells						
				I	II			III	IV	V
		SWD 2D	ER 2R	HC 2H						
V. Permit Application Number of Permit Applications Received										
VI. Permit Determination	Permit Issued	A	Number of Individual Permits Issued (One Well)	New Wells						
		B	Number of area Permits* Issued (Multiple Wells) (*See instructions on back)	New Well Field						
		C	Number of Wells in Area Permits (See B above)	Existing Well Field						
	D	Number of Permits Denied/Withdrawn (after complete technical review)	New Wells							
	E	Number of Major Permit Modifications Approved	Existing Wells							
VII. Permit File Review Number of Rule-Authorized Class II Wells Reviewed				Wells Reviewed						
				Wells Deficient						
VIII. Area of Review (AOR)	Wells Reviewed	A	Number of Wells in Area of Review	Abandoned Wells						
		B	Number of Wells Identified for Corrective Action	Other Wells						
	Wells Identified for C/A			Abandoned Wells						
		C	1. Number of Wells in AOR with Casing Repaired/Recemented C/A	Other Wells						
	Wells with C/A		2. Number of Active Wells in AOR Plugged/Abandoned							
		3. Number of Abandoned Wells in AOR Replugged								
		4. Number of Wells in AOR with "Other" Corrective Action								
IX. Remarks/Ad Hoc Report (Attach additional sheets if necessary)										
Certification I certify that the statements I have made on this form and all attachments thereto are true, accurate, and complete. I acknowledge that any knowingly false or misleading statement may be punishable by fine or imprisonment or both under applicable law.										
Signature and Typed or Printed Name and Title of Person Completing Form							Date		Telephone No.	

Instructions and Definitions

All reporting is cumulative, year to date, and begins with October 1.

Section V. Permit Application

Enter under each well class the total number of permit applications that have been received this year to date. Include all applications: complete and incomplete; individual and municipal well (Area Permit); and applications for “New” and “Existing” wells.

A “New Well” is any well other than an existing well or a plugged/abandoned well that became operable after the effective date of the State (or EPA) Underground Injection Control Program.

An “Existing Well” is any operable (i.e., active, under construction, shut in, or temporarily abandoned) injection well or a properly plugged and abandoned injection well that was in existence on the effective date of the State (or EPA) UIC Program.

Section VI. Permit Determination

Permit Determinations include the approval or denial of UIC permit request/actions such as: applications for permits, major modifications to issued permits, revocation and reissuance of permits, or termination of permits for cause. A complete permit determination includes a thorough technical evaluation of the request, public notification or review before issuance, and a final decision document signed by the regulating authority.

Item A: Enter under each well class the number of individual permits issued for “New” or “Existing” wells this year to date.

Item B: Enter under each well class the number of area permits that have been issued for “New” or “Existing” well fields this year to date. (“New” in this case, describes a nonhazardous injection well field having only new wells or a mixture of new and existing wells. “Existing” describes a nonhazardous well field having only existing wells.)

Item C: Enter under each well class the number of “New” and “Existing” wells covered by the Area Permits entered in Item B.

Item D: Enter under each well class the number of permits or major modifications denied by the State (or EPA) UIC program and/or permits withdrawn by applicants this year to date. The denial of a permit or major modification should be included as a permit determination only after there has been a complete technical review.

Item E: Enter under each well class the number of major modifications approved this year to date. An approved major modification requires a complete technical review, public notification or review, and a final decision document signed by the regulating authority.

Section VII. Permit File Review

A complete technical review of an existing (rule authorized) Class II well record may be conducted by the authorized regulating authority in lieu of a permit determination in accordance with the UIC 1425 Guidance to determine whether the well is in compliance with UIC regulatory requirements. The well record (or file) review may include an evaluation of siting reports, wells in the area of review, construction, operating, monitoring or other State reports. Existing Class II wells should be routinely reviewed at least once every five years during the life of the well.

Well Reviewed: Enter under the appropriate category of injection wells the number of rule authorized (existing) Class II wells with permit files reviewed and compliance status determined this year to date.

Well Deficient: Enter under the Class II well class the number of reviewed rule authorized Class II wells found deficient (not in compliance) that received corrective or enforcement action as appropriate followup response.

Section VIII. Area of Review (AOR)

All wells that penetrate the injection zone in the AOR of an injection well/field are reviewed during permit determination or during any AOR analysis of a rule authorized well file.

Item A: Enter under the well class of each permit application or file that has been reviewed this year to date, the number of “Abandoned” and “Other” wells reviewed in the AOR.

“Abandoned” includes any well penetrating the injection zone in the AOR that has been properly or improperly plugged and/or abandoned. “Other” includes any producing well, operable injection well, dry hole, exploratory well, etc., that penetrates the injection zone in the AOR.

Corrective Action is required for those wells that penetrate the injection zone in the AOR that are improperly sealed, completed, or abandoned.

Item B: Enter under the well class of each permit applications or file reviewed this year to date, all “Abandoned” and “Other” wells in the AOR that have required corrective action.

Item C: Enter under the well class of all permit applications or files that have been reviewed, the number of wells in the AOR which have received corrective action (be specific) this year to date.

Paperwork Reduction Act Notice

The public reporting and record keeping burden for this collection of information is estimated to average 4.5 hours per year. Burden means the total time, effort, or financial resource expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal Agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to the collection of information; search data sources; complete and review the collection of information; and, transmit or otherwise disclose the information. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. Send comments on the Agency’s need for this information, the accuracy of the provided burden estimates, and any suggested methods for minimizing respondent burden, including the use of automated collection techniques to Director, Collection Strategies Division, U.S. Environmental Protection Agency (2822), 1200 Pennsylvania Ave., NW., Washington, D.C. 20460. Include the OMB control number in any correspondence. Do not send the completed forms to this address.
