

Geographic Distribution Of VA Expenditures—FY 1997

INTRODUCTION

The *Geographic Distribution of VA Expenditures (GDX) for FY 1997*, published by the Department of Veterans Affairs (VA), presents estimated expenditures for major VA programs by county and Congressional District (CD) within each State. The CDs reflected in the FY 1997 GDX are for the 105th Congress.

For counties containing more than one Congressional District, the estimated expenditures are shown by separate CD within the county and the county total is indicated after "total." The CD number is shown adjacent to the county name when the county is contained within a CD. A summary of expenditures by CD is presented after the county data at the end of each State listing. For States that have only one Congressional District, the Congressional District is numbered (01).

The data presented in the GDX represent VA's best estimates of expenditure activity and should not be construed as an accounting document. A brief discussion of each data category appearing in this report is provided below. The *Catalog of Federal Domestic Assistance*, published by the Office of Management and Budget and the U.S. General Services Administration, also provides information on VA programs.

VETERAN POPULATION

The FY 1997 GDX contains the estimated veteran population data for each State, county, and Congressional District. This data is an indication of the number of veterans who may be utilizing benefits services from VA. The county veteran population data are estimates prepared by Analysis and Statistics Service (008C1) based on the 1990 Census.

COMPENSATION AND PENSION AND READJUSTMENT AND VOCATIONAL REHABILITATION

The data for these categories are from the VA's Federal Assistance Award Data System (FAADS).

The **compensation and pension** category includes expenditures for veterans' compensation for service-connected disability, compensation for service-connected deaths for veterans' dependents, veterans' dependency and indemnity compensation for service-connected deaths, pension for nonservice-connected disability for veterans, pension to veterans' surviving spouses and children, and burial expenses allowance for veterans.

The **readjustment and vocational rehabilitation** category includes expenditures for automobiles and adaptive equipment for certain disabled veterans and members of the Armed Forces, specially adapted housing for disabled veterans, dependents' educational assistance (38 U.S.C., Chapter 35), vocational rehabilitation for disabled veterans (38 U.S.C., Chapter 31), post-Vietnam Era veterans' educational assistance (38 U.S.C., Chapter 32), and the Montgomery G.I. Bill for

Selected Reserves (Chapter 106). The FY 1994 GDX did not include the FY 1994 expenditures for the Montgomery G.I. Bill - Active Duty (Chapter 30) because Chapter 30 expenditure data was available only on a Statewide basis and could not be further broken down to a county or Congressional District basis. The FY 1995 edition of the GDX does include Chapter 30 expenditure data on a county and Congressional District basis.

INSURANCE AND INDEMNITIES

The data reported for this category are provided by the VA Regional Office and Insurance Center in Philadelphia, Pennsylvania, and are estimates of VA expenses concerning payment of death claims, matured endowments, dividends, cash surrender payments, total disability income provision payments, and total and permanent disability benefits payments. The estimates are based on statistical allocations using the veteran population to disperse amounts to geographic locations.

CONSTRUCTION AND RELATED COSTS

Information on major and minor construction projects is reported on an actual basis using accrued expenditure data derived from the Financial Management System (FMS) Accrued Expenditures by VA Facility within State Report.

MEDICAL SERVICES AND ADMINISTRATIVE COSTS

Information is reported on an actual basis using accrued expenditure data derived from the Financial Management System (FMS) The specific programs reported for this category are medical care, medical administration and miscellaneous operating expenses, medical and prosthetic research, and general operating expenses.

Note that expenditures for headstones, markers, and burial flags are not included in the GDX. This data is reported to the Office of Management and Budget through the Federal Procurement Data System.
