

# Transportation Security Administration

## TSA PSA

The Transportation Security Administration reminds air travelers to be prepared and pack smart this holiday season. If you plan to travel with liquids, gels or aerosols in your carry-on bag remember 3-1-1.

All liquids, gels and aerosols must be in 3 ounce or smaller containers.

Containers must be placed in a 1 quart-size, clear, plastic, zip-top bag and must be removed from your carry-on and placed in the security bin.

Only one zip-top bag is permitted per traveler.

Remember 3-1-1 to speed your screening process. Larger liquids can be placed in checked baggage
