Importance: High

Kevin,

We were ALMOST done. This just came from Maura about LANSCE usage.

Susan, very sorry but I an estimated report for September's number and it was considerably lower. For the LANSCE gas usage please use: 65,283 mmbtu. The TA-55 gas usage came off a different report so that one is still correct.

Sorry for my error.

Susan,

Jerry just brought to my attention that I wrote FY06 in my response - it really is FY05 data.

Susan,

For TA-55 (PF-4 boilers located in PF-6) the total gas used for FY06 is 20,427 MCF.
For LANSCE the usage is 64,609 mmbtu (approximately the same as MCF).
Let me know if you need any other data.

Jerry - please let me know if you agree with my numbers. I just summed up the monthly totals.

Respectfully,
Maura

Maura,

Total combined usage per site for the FY will be fine. Thank you.

Susan

Susan,

How do you want this data - I have numbers for each month or do you want a total combined usage per site for the FY?

Thanks,
Maura

Susan,

Maura Miller from KSL has natural gas usage for these facilities.

Maura,

Please furnish Susan with the natural gas usage for TA-53 and TA-55 PF-4. Let me know if you have any questions.

At 08:39 AM 12/4/2006, you wrote:

Jerry,

Is FY05 natural gas usage available for LANSCE (TA-53) and for the TA-55 Complex (or even just for PF-4)? We need this information, if possible, for the new SWEIS still in preparation. Many thx, Jerry.
