Kirk,

Here are the numbers for calender year 2007. There were 121 shipments of TRU waste to WIPP in calender year 2007 with a volume of 629 cubic meters.

John or Jennifer,

In comments from NNSA-HQ, we received a request to update a statement we make about progress in getting waste sent to WIPP.

I believe that Jerry O'Leary or someone in his area provided us the numbers we got for 2006. Could you request an update to provide us the volume and number of shipments of TRU waste sent to WIPP in 2007?

Thanks,

Kirk Owens
