Subject: Fwd: RE: number of construction projects in 2005 for LANL SWEIS

Footnote reference, as the 2005 ESR does not contain the number of construction projects for Table 4-13.

Attached is a report like I sent you last time. I believe Jake Meadows has the permit tracking table.

Jennifer,

Remember a while ago, I had you provide info on the number of construction projects associated with the construction general permit for 2004? I need the same info for 2005, as we are now including that in the LANL SWEIS. We had 34 projects with 67 SWPPPs in 2004, and the 2005 Envi Surveillance Report has 64 SWPPPs for 2005, but again no info on the number of projects to complete our table 4-13.

Please talk to Mike Saladen or Robin to get authorization for this, but I need this info ASAP. Hope you still have that database query you can use again, to make this simple. Thanks very much for your help!

Debbie
