Subject: Remaining Data Needs to Update LANL SWEIS Infrastructure

Kirk,

I was just re-reading Jerry's comments and have contacted Terry Connors (505-665-3872) who is point of contact on this project. The tie-ins are scheduled to be completed on November 30, 2006. However, actual completion of the project is expected at the end of FY 07 because of the BMPs. We are required to inspect and approve the installation and maintenance of the BMPs until the affected area is 70% revegetated. This is expected to happen at the end of FY 07.
