Kirk,

Here you go. I'm still trying to get clarification on the TA-54 hazard classifications.

Susan,

Here is the data you requested. I added an additional spreadsheet to the workbook that you sent to me.

Tim,

This attachment is data originally provided by you for the new SWEIS. DOE has now decided to include any available 2005 data. Will you please send me the comparable data for 2005? Many thx.

John,

For the draft SWEIS, the attached information was provided regarding shipments of waste offsite. Could we get the same information for 2005? We will use it to update 4-152 on page 4-149.

Per the email trail, these data came from Tim Sloan.

Thank you.

Kirk, this should help with the waste shipments and destinations.

Susan,

Here is what I came up with. I think that it is what you are looking for. Give me a call if

you have any questions(5-8663).

Tim,

I have attached a spreadsheet with the data request. I need responses to T-6. This is very similar to T-2 which dealt with TRU waste. Julie did have someone generate the RQ data, so I think I'm OK there. Thx very much for your help.

T-6 - For the past 3 years, I need to know the total number of our waste shipments, the volumes, the generator, kinds of packages, and destination.
