A Brief History of St. Vincent Regional Medical Center

Established in 1865, St. Vincent Hospital has been caring for this community and northern New Mexico for more than 130 years. Originally run by the Sisters of Charity, today's St. Vincent is a non-profit, non-affiliated hospital with a board of directors. Many things have changed since the hospital opened its doors in 1865, but its mission remains the same, to care for all the people of Santa Fe, northern New Mexico, and southern Colorado regardless of their ability to pay.

Hospital Facts

- Established in 1865.
- New Mexico's oldest hospital
- A non-profit, non-affiliated hospital with a local board of directors
- 268 licensed beds
- 250 Staff physicians representing 22 medical specialties
- More than 56,000 Emergency/ FirstCare patients treated annually by board certified emergency physicians

Testimonials

St. Vincent Nursing

Nursing is a calling. St. Vincent is where I choose to make a difference.
