

## **Student Educational Employment Program (SEEP)**

### **SCHOOL AND WORK**

#### **A Rewarding Combination**

Gain valuable work experience...while you're still in school...and get paid for it!

Thank you for your interest in student employment with the Federal Government. The Federal Government has always looked to educational institutions to find people who have the skills needed to meet its future employment needs. That's why we created the Student Educational Employment Program to attract talented students to Federal public service.

It's an opportunity to earn money and continue your education, to train with people who manage the day-to-day business of the national Government, and to combine your academic study with on-the-job experience. The Student Educational Employment Program is an excellent way to introduce you to the advantages and challenges of working for the United States Government.

#### **What is the Student Educational Employment Program?**

The Student Educational Employment Program has two components student temporary employment and student career experience. It is available to all levels of students: high school, vocational and technical, associate degree, baccalaureate degree, graduate degree, and professional degree students.

##### **1. Student Temporary Employment Component**

Job opportunities under this component offer you temporary employment. Employment can range from summer jobs to positions that can last for as long as you are a student. These employment opportunities need not necessarily be related to your academic field of study.

##### **2. Student Career Experience Component**

This component offers you valuable work experience directly related to your academic field of study. It provides formal periods of work and study while you are attending school. It requires a commitment by you, your school, and the employing Federal agency. You may be eligible for permanent employment under this component after successfully completing your education and meeting work requirements.

#### **Program Features Under Both Components:**

- Students may be employed year round.
- Flexible schedule of work assignments.
- Open to all students...high school, under-graduate, graduate, and vocational/technical

#### **Eligibility Requirements**

You are eligible under the Student Educational Employment Program if you are:

A student enrolled or accepted for enrollment as a degree-seeking student (diploma, certificate, etc.)

At least the minimum age required by Federal, state or local laws and standards governing the employment of minors,

Taking at least half-time academic or vocational and technical course load in an accredited high school, technical or vocational school, 2-year or 4-year college or university, graduate or professional school, and

A U.S. citizen or a national (resident of American Samoa or Swains Island); non-citizens may be eligible for employment if:

1. Permitted by a Federal agency's appropriation act, and
2. Eligible to work under U.S. immigration laws.

U.S. citizenship is required for conversion to permanent employment under the Student Career Experience Component

### **Employment Outlook**

"Highly competitive" and "talented" both describe the current and future employment needs of the Federal public service. Like the private sector, organizations throughout Government are undergoing streamlining and restructuring to become more efficient and less costly to operate. This means that fewer jobs are available in most industries, including Government.

However, the Fish and Wildlife Service is still recruiting for specific occupations where we need to provide critical services, maintain technical expertise, and attract students who demonstrate the skills and abilities the Government needs.
