PRODUCERS' QUESTIONNAIRE

STEEL

Return completed questionnaire to:

UNITED STATES INTERNATIONAL TRADE COMMISSION

Office of Investigations, Room 615 500 E Street, SW, Washington, DC 20436

So as to be Received by the Commission By May 6, 2003

The information called for in this questionnaire is for use by the United States International Trade Commission in connection with investigation No. TA-204-9, Steel: Monitoring Developments in the Domestic Industry, under section 204 of the Trade Act of 1974 (19 U.S.C. 2254). The information requested in the questionnaire is needed to supplement data available to the Commission from other sources and is requested under the authority of section 204 of the Trade Act of 1974. This report is mandatory and failure to reply as directed can result in a subpoena or other order to compel the submission of records or information in your possession (19 U.S.C. § 1333(a)).

CERTIFICATION

I certify that the information herein supplied in response to this questionnaire is complete and correct to the best of my knowledge and belief and understand that the information submitted is subject to audit and verification by the Commission. I acknowledge that information submitted in this questionnaire response and throughout this investigation may be used by the Commission, its employees, and contract personnel who are acting in the capacity of Commission employees, for developing or maintaining the records of this investigation or related proceedings for which this information is submitted, or in internal audits and investigations relating to the programs and operations of the Commission pursuant to 5 U.S.C. Appendix 3 and that all contract personnel will sign non-disclosure agreements. I understand that the confidential business information that is furnished may be released under an administrative protective order issued by the Commission pursuant to section 206.17 of the Commission's Rules of Practice and Procedure (19 CFR § 206.17), and may be included in a confidential version of the report that the Commission, and its employees and contract personnel, to use, in this investigation and in any other investigations conducted by the Commission under part 1 of Title II of the Act arising out of the relief action taken by the President as a result of the Commission's determination in investigation No. TA-201-73 on steel products, the information I provide in this questionnaire and throughout the investigation and any information provided by my firm in investigation No. TA-201-73.

PART I.--GENERAL QUESTIONS

The questions in this questionnaire have been reviewed with market participants to ensure that issues of concern are adequately addressed and that data requests are sufficient, meaningful, and as limited as possible. Public reporting burden for this questionnaire is estimated to average 50 hours per response, including the time for reviewing instructions, searching existing data sources, gathering the data needed, and completing and reviewing the questionnaire. Send comments regarding the accuracy of this burden estimate or any other aspect of this collection of information, including suggestions for reducing the burden, to the Office of Investigations, U.S. International Trade Commission, 500 E Street, SW, Washington, DC 20436.

I-1. Please report below the actual number of hours required and the cost to your firm of preparing the reply to this questionnaire and completing the form.

hours	dollars
-------	---------

I-2. Provide the name and address of establishment(s) covered by this questionnaire (see page 3 of the instruction booklet for reporting guidelines). If your firm is publicly traded, please specify the stock exchange and trading symbol.

I-3.	Is your f	irm owned	in whole	or in nar	t hu anu	other firm?

PART II.--TRADE AND RELATED INFORMATION

II-1. <u>Carbon and alloy flat steel</u>.--Further information on this part of the questionnaire can be obtained from Elizabeth Haines (202-205-3200). Who should be contacted in your firm regarding the information requested in part II-1?

Company contact:

Name and title Phone No.

Fax No.

Email address

Please note that if your answer to questions II-1-A through II-1-C is product specific, you should check only one box per page and report <u>separately</u> for each product listed below; however if your answers apply to more than one product you may check more than one box. Photocopy pages 6-9 and identify the product(s) for which you are reporting in the space provided.

Ш	Ш	П	11	Ш І	I
Slabs products	CTL/Clad	Hot-rolled sheet,	Cold-rolled sheet and	Corrosion-resistant and	Tin mill
products	plate	strip, and coils	strip, other than GOES	other coated sheet and strip	

II-1-A. Did your firm indicate to USTR since the initiation of the original section 201 investigation or to the Commission in its response to the producers' questionnaire issued in connection with inv. No. TA-201-73 (specifically on page 6, 8, 10, 12, 16, or 18 in Part II) that you would make adjustments in your subject steel products operations that would permit you to compete more effectively with imports of subject steel products after relief expires if you were to receive import relief <u>as a result of that investigation</u>?

II

No. Firm indicated that it would not make adjustments <u>in addition</u> to those that had already been made by the firm and/or its workers since January 1996 to compete more effectively.

Not known and/or original questionnaire response to inv. No. TA-201-73 not available.

II

II

Yes–Please attach copies of the specific adjustment plans for your firm as reported to the Commission during inv. No. TA-201-73 or to USTR since the initiation of the original section 201 investigation. Also, please discuss below the reason(s) why specific adjustment actions have NOT been implemented (and are therefore not identified in your response to Question II-1-C). As necessary, please be specific as to the specific adjustment action that is being discussed.

II-1-B. Describe the significance of the tariffs and/or tariff-rate quotas imposed by the President effective on or after March 20, 2002, in terms of their effect on your firm's operations in the following categories. You may wish to compare your firm's operations before and after the imposition of the relief. Use additional pages as necessary. Please explain how you have separated the effects of 201 relief from the effects of other factors, such as closure or re-opening of domestic production facilities, changes in demand, exchange rate changes or antidumping and countervailing duties.

(a) Production capacity, production, shipments, inventories, and employment:

(b) Return on investment, ability to generate capital to finance the modernization of domestic plant(s) and equipment, or ability to maintain existing levels of expenditures for research and development:

(c) Changes in your firm's collective bargaining agreements (attach copies of all collective bargaining agreements in effect or otherwise agreed to by your firm since January 2000):

II-1-C. <u>Efforts to compete</u>--Since March 20, 2002, has your firm undertaken any efforts to compete more effectively in the U.S. market for subject steel products?

// No

Yes--Describe, as indicated below:

(1) any efforts of the types indicated which have been made by your firm and/or its workers since March 20, 2002, to compete more effectively, (2) the period (month(s) and year(s)) in which the effort was made, (3) the expenditure or savings involved, as applicable, (in thousands of dollars), and (4) the effectiveness of your efforts, including any competitive advantage acquired (i.e., increased production, cost reduction, quality improvement, increased market share or sales, etc.). ATTACH ADDITIONAL PAGES IF NECESSARY. If you feel that any of these efforts have been made primarily to compete with sales of imported subject steel products, please indicate this with an asterisk and give the reasons to support your beliefs. To the extent possible, furnish the Commission with memoranda, studies, or other documentation which indicate that such competitive efforts were undertaken primarily against imports of subject steel.

II-3. Carbon and alloy tubular products and fittings.--Continued

- Welded tubular product other than OCTG Flanges and fittings
- II-3-C. Efforts to compete--Since March 20, 2002, has your firm undertaken any efforts to compete more effectively in the U.S. market for subject steel products?
 - No Yes--Describe, as indicated below:

(1) any efforts of the types indicated which have been made by your firm and/or its workers since March 20, 2002, to compete more effectively, (2) the period (month(s) and year(s)) in which the effort was made, (3) the expenditure or savings involved, as applicable, (in thousands of dollars), and (4) the effectiveness of your efforts, including any competitive advantage acquired (i.e., increased production, cost reduction, quality improvement, increased market share or sales, etc.). **ATTACH ADDITIONAL PAGES IF NECESSARY.** If you feel that any of these efforts have been made primarily to compete with sales of imported subject steel products, please indicate this with an asterisk and give the reasons to support your beliefs. To the extent possible, furnish the Commission with memoranda, studies, or other documentation which indicate that such competitive efforts were undertaken primarily against imports of subject steel.

EFFORTS TO COMPETE	PERIOD	E = EXPENSE S = SAVINGS (\$1,000)	EFFECTIVENESS OF EFFORTS/ COMPETITIVE ADVANTAGE ACQUIRED

WAGES PAID TO PRWs (value)					
¹ Please explain any increases or decreases shown (e.g. increased efficiency, increase/decrease of equipment/shifts): ² Sales to related firms (including internal consumption) must be valued at fair market value. In the event that you use a different basis for valuing these sales within your company, please specify that basis (e.g., cost, cost plus, etc.) and provide value data using that basis for each of the periods below: ³ Identify your principal export markets and if your export markets (or the quantity and value of your exports to these markets) have changed over the period, please explain the reasons for such changes:					
 ⁴ <u>Reconciliation of data</u>Please note that the quantities reported above should reconcile as follows: beginning-of-period inventories, plus production, less total shipments, equals end-of-period inventories. Do the data reported reconcile? Yes NoPlease explain: 					

PART II.--TRADE AND RELATED INFORMATION--Continued

II-3. Carbon and alloy tubular products.--Continued

II-3-E. Excluded and product-specific quota products.--In order for the Commission to better understand the significance of the subject carbon and alloy tubular products which are now excluded from the remedy, please report your production quantity for the <u>now excluded products</u>. (Please note that for purposes of this question, it does not matter when the product was excluded from the remedy.) Specific products which are excluded from the additional remedy tariffs or are excluded up to a certain quota amount are identified by temporary Harmonized Tariff Schedule (HTS) subheadings in the instruction booklet that accompanied this questionnaire. Please identify each product by specifying the temporary HTS subheading as well as the total for the product group. If you are not able to report separately for each temporary HTS subheading, please report your total production for the product group and identify the temporary HTS subheadings for which you are reporting. Please photocopy page and report separately for each product group listed below.

- II-4-A. Did your firm indicate to USTR since the initiation of the original section 201 investigation or to the Commission in its response to the producers' questionnaire issued in connection with inv. No. TA-201-73 (specifically on page 54, 56, or 60 in Part II) that you would make adjustments in your subject steel products operations that would permit you to compete more effectively with imports of subject steel products after relief expires if you were to receive import relief <u>as a result of that investigation</u>?
 - II

No. Firm indicated that it would not make adjustments <u>in addition</u> to those that had already been made by the firm and/or its workers since January 1996 to compete more effectively.

11

Not known and/or original questionnaire response to inv. No. TA-201-73 not available.

II

Yes–Please attach copies of the specific adjustment plans for your firm as reported to the Commission during inv. No. TA-201-73 or to USTR since the initiation of the original section 201 investigation. Also, please discuss below the reason(s) why specific adjustment actions have NOT been implemented (and are therefore not identified in your response to Question II-4-C). As necessary, please be specific as to the specific adjustment action that is being discussed.

II-4-B. Describe the significance of the tariffs and/or tariff-rate quotas imposed by the President effective on or after March 20, 2002, in terms of their effect on your firm's operations in the following categories. You may wish to compare your firm's operations before and after the imposition of the relief. Use additional pages as necessary. Please explain how you have separated the effects of 201 relief from the effects of other factors, such as closure or re-opening of domestic production facilities, changes in demand, exchange rate changes or antidumping and countervailing duties.

(a) Production capacity, production, shipments, inventories, and employment:

(b) Return on investment, ability to generate capital to finance the modernization of domestic plant(s) and equipment, or ability to maintain existing levels of expenditures for research and development:

(c) Changes in your firm's collective bargaining agreements (attach copies of all collective bargaining agreements in effect or otherwise agreed to by your firm since January 2000):

Further information on this part of the questionnaire can be obtained from Josh Levy (202-205-3236) or jlevy@usitc.gov.

[°] Who should be contacted regarding the requested pricing and related information?

Company contact:

Name and title

Phone No.

Section IV-A.--<u>PRICE DATA</u>

This section requests quarterly price and quantity data concerning your firm's shipments of the following products produced by your firm and sold to unrelated U.S. customers during April 2000-March 2003. Definitions for each product for which pricing data are requested are listed below and are separated into different sections for (1) carbon and alloy flat steel (section IV-A-1); (2) carbon and alloy steel long products (section IV-A-2); (3) carbon and alloy steel tubular products (section IV-A-3); and (4) stainless steel products (section IV-A-4).

Please report separately for your firm's sales of each of the products produced by your firm and sold to unrelated U.S. customers; check the appropriate box at the top of each page and photocopy each page as necessary. Total dollar values should be f.o.b., U.S. point of shipment and should not include U.S.-inland transportation costs. Total dollar values should reflect the <u>FINAL NET</u> amount paid to you (i.e., should be net of all deductions for discounts or rebates).

Carbon and Alloy Flat Steel:

- **PRODUCT 1:** SLABS-Low carbon slabs with chemistries of up to 0.15 max carbon and 0.60 max manganese exclusive of IF or specialty chemistries. (This product definition matches the product definition for "Product 1" in the questionnaire for the steel 201 investigation (Inv. TA-201-73, dated July 30, 2001).
- PRODUCT 2: CTL/CLAD PLATE--Hot-rolled carbon steel plate, ASTM A-36 or equivalent as rolled, sheared edge, not heat treated, not cleaned or oiled, in cut lengths, over 72" through 96" in width, 1.00" through 2.00" in thickness. Not including high-strength or mill proprietary products, or products tested to other specifications, unless otherwise noted. (This product definition matches the product definition for "Product 2" in the questionnaire for the steel 201 investigation (Inv. TA-201-73, dated July 30, 2001).
- **PRODUCT 3A:** HOT-ROLLED SHEET AND STRIP, INCLUDING PLATE IN COILS--Hot-rolled carbon steel plate in coils, as-rolled (unprocessed), not pickled or temper-rolled, not high-strength, produced to AISI-1006-1025 grade (including, but not limited to, ASTM A36), 0.187" through 0.625" in nominal or actual thickness, 40" through 72" in width. (This product definition matches the product definition for "Product 3A" in the questionnaire for the steel 201 investigation (Inv. TA-201-73, dated July 30, 2001).
- **PRODUCT 3B:** HOT-ROLLED SHEET AND STRIP, INCLUDING PLATE IN COILS--Hot-rolled carbon sheet in coils, commercial quality, SAE 1006-1015 or ASTM 569 equivalent, not high-strength, not pickled and oiled, not temper-rolled, 0.090" through 0.171" in nominal or actual thickness, 40" to 60" in width. (This product definition matches the product definition for "Product 3B" in the questionnaire for the steel 201 investigation (Inv. TA-201-73, dated July 30, 2001).

PART IV.--PRICING AND RELATED INFORMATION--Continued

Section IV-A.--<u>PRICE DATA</u>

Carbon and Alloy Flat Steel:-(Continued)

- **PRODUCT 4A:COLD-ROLLED SHEET AND STRIP OTHER THAN GRAIN-ORIENTED**
ELECTRICAL STEEL--Cold-rolled carbon steel sheet, in coils, commercial quality (ASTM A-
366), not interstitial free, box annealed and temper rolled, 36" to 72" in width, 0.022" to less than
0.028" in thickness. (This product definition matches the product definition for "Product
4A" in the questionnaire for the steel 201 investigation (Inv. TA-201-73, dated July 30,
2001).
- **PRODUCT 4B:PRODUCT 4B:** COLD-ROLLED SHEET AND STRIP OTHER THAN GRAIN-
ORIENTED ELECTRICAL STEEL--Cold-rolled carbon steel sheet in coils, commercial
quality (ASTM A-366), not interstitial free, box annealed and temper-rolled, 36" to 72" in width,
0.028" to less than 0.090" in thickness. (This product definition matches the product
definition for "Product 4B" in the questionnaire for the steel 201 investigation (Inv. TA-
201-73, dated July 30, 2001).
- PRODUCT 5A: CORROSION-RESISTANT AND OTHER COATED SHEET AND STRIP--Aluminum-zinc alloy coated carbon steel sheet, in coils, hot dipped, structural quality, ASTM A-792, grade 50, AZ50, 40" to 49" in width, 0.019" to 0.0219" in thickness. This product has a coating of 55 percent aluminum, 43.5 percent zinc, and 1.5 percent silicon, and has a variety of product names worldwide including "Galvalume," "Zincalume," "Aluzink," "Zinkalit," and "Zalutite." This product is not pre-painted, has no organic coating, and is not high strength. (This product definition matches the product definition for "Product 6A" in the questionnaire for the steel 201 investigation (Inv. TA-201-73, dated July 30, 2001).
- PRODUCT 5B: CORROSION-RESISTANT AND OTHER SHEET AND STRIP--Electrolytically zinc coated carbon steel sheet, in coils, ASTM A-879, 50-90 grams/square meter per side coating, without organic coating, forming steel, 40" to under 60" in width, 0.022" to under 0.044" in thickness. This product is not prepainted, is not high strength, and is not mill proprietary. (This product definition matches the product definition for "Product 6B" in the questionnaire for the steel 201 investigation (Inv. TA-201-73, dated July 30, 2001).
- **PRODUCT 6:** TIN MILL PRODUCTS--Base price for single-reduced, electrolytic tin plate (1CRETP), 70-75 pound per base box. (This product definition matches the product definition for "Product 7" in the questionnaire for the steel 201 investigation (Inv. TA-201-73, dated July 30, 2001).

Carbon and Alloy Steel Long Products:

- **PRODUCT 7:** HOT-ROLLED BAR AND LIGHT SHAPES--Hot-rolled bars, grade ASTM A36 or equivalent in sizes 3 inches and under. (This product definition matches the product definition for "Product 9" in the questionnaire for the steel 201 investigation (Inv. TA-201-73, dated July 30, 2001).
- **PRODUCT 8A:** COLD-FINISHED BAR--C1045, one inch round (This product definition matches the product definition for "Product 10A" in the questionnaire for the steel 201 investigation (Inv. TA-201-73, dated July 30, 2001).

PART IV.--PRICING AND RELATED INFORMATION--Continued

Section IV-A.--<u>PRICE DATA</u>

Carbon and Alloy Steel Long Products:-(Continued)

- **PRODUCT 8B: COLD-FINISHED BAR--**C12L14, one inch round. (**This product definition matches the product definition for "Product 10B" in the questionnaire for the steel 201 investigation** (**Inv. TA-201-73, dated July 30, 2001**).
- **PRODUCT 9: REBAR**–Straight ASTM A615, Nos. 4 and 5, grade 60 rebar. (This product definition matches the product definition for "Product 11" in the questionnaire for the steel 201 investigation (Inv. TA-201-73, dated July 30, 2001).

Carbon and Alloy Steel Tubular Products:

- **PRODUCT 10A:** WELDED TUBULAR PRODUCTS OTHER THAN OCTG--Circular welded non-alloy steel pipe meeting ASTM A-53 or equivalent, schedule 40, black, plain-end, two inches nominal inside diameter. (This product definition matches the product definition for "Product 20A" in the questionnaire for the steel 201 investigation (Inv. TA-201-73, dated July 30, 2001).
- **PRODUCT 10B:** WELDED TUBULAR PRODUCTS OTHER THAN OCTG-ASTM A-513 (mechanical) or A-500 grade A or B (ornamental) tubing, carbon-welded, pickled and oiled, 1 inch square, 0.065 inch nominal wall thickness (+ or - 10 percent), 20 foot to 24 foot mill lengths. (This product definition matches the product definition for "Product 20B" in the questionnaire for the steel 201 investigation (Inv. TA-201-73, dated July 30, 2001).
- **PRODUCT 11:** FLANGES AND FITTINGS--Carbon steel butt-weld pipe fitting, 6 inch nominal diameter, 90 degree elbow, long radius, standard weight, meeting ASTM A-234, grade WPB or equivalent specification. (This product definition matches the product definition for "Product 22" in the questionnaire for the steel 201 investigation (Inv. TA-201-73, dated July 30, 2001).

Stainless Steel Products:

- **PRODUCT 12A: BAR AND LIGHT SHAPES-**-Stainless steel bar, grade 304/304L, 1 inch in diameter, annealed, cold-finished, of round shape. (This product definition matches the product definition for "Product 25A" in the questionnaire for the steel 201 investigation (Inv. TA-201-73, dated July 30, 2001).
- **PRODUCT 12B:** BAR AND LIGHT SHAPES--Grade 304, hot-rolled, annealed and descaled stainless steel, 90degree angle, 2" x 2" x 1/4". (This product definition matches the product definition for "Product 25B" in the questionnaire for the steel 201 investigation (Inv. TA-201-73, dated July 30, 2001).
- **PRODUCT 13: ROD--**Grade AISI 304 wire rod, 5.5 mm (0.217") diameter, hot-rolled, annealed, and pickled. (This product definition matches the product definition for "Product 26" in the questionnaire for the steel 201 investigation (Inv. TA-201-73, dated July 30, 2001).
- **PRODUCT 14:** WIRE --Grade 302 HQ cold-heading stainless steel round wire, 0.099 to 0.127 inch (2.515 to 3.226 mm) in diameter annealed. (This product definition matches the product definition for "Product 28" in the questionnaire for the steel 201 investigation (Inv. TA-201-73, dated July 30, 2001).

Section IV-B.--PRICE-RELATED QUESTIONS

PLEASE NOTE THAT THE QUESTIONS IN THE FOLLOWING SECTION REFER TO ALL TYPES OF STEEL COVERED IN THIS QUESTIONNAIRE. IF YOUR RESPONSE TO ANY QUESTION DIFFERS DEPENDING ON THE TYPE OF STEEL, PLEASE NOTE THIS IN YOUR RESPONSE AND REPORT SEPARATELY FOR THE DIFFERENT PRODUCTS.

- IV-B.1. Please describe any changes in how your firm determines the prices that it charges for sales of its steel (transaction by transaction negotiation, contracts for multiple shipments, set price lists, etc.) since March 20, 2002, the date import relief measures were implemented.
- IV-B.2. Please describe any change in your firm's discount policy (volume discounts, year-end rebates, etc.) since March 20, 2002.
- IV-B.3 Since March 20, 2002, has there been a change in the percent of sales made by your firm that are on a contract basis and on a spot basis? If so, please describe.
- IV-B.4 a) In general, do prices for sales of steel pursuant to contracts follow a similar trend to prices for steel sold in spot sales? If so, please describe.

b) Since March 20, 2002, has there been a change in either the relative levels or in the trends of spot and contract prices for steel? If so, please describe.

IV-B.5. Since March 20, 2002, has there been a change in the average lead time between a customer's order and the delivery of your firm's sales of its steel? If so, please describe. From inventory:

From production:
