In making such review, the Secretary shall determine whether the continued operation of paragraphs (b), (c), (d), and (e) of this headnote gives due consideration to the interests in the United States sugar market of domestic producers and materially affected contracting parties to the General Agreement on Tariffs and Trade, and whether the operation of paragraph (g) of this headnote would give due consideration to such interests. The Secretary shall file a notice of such determinations in the <u>Federal Register</u> no later than September 1 of each year. If the Secretary determines that the continued operation of paragraphs (b), (c), (d), and (e) of this headnote would not give due consideration to the interests in the United States sugar market of domestic producers and materially affected contracting parties to the General Agreement on Tariffs and Trade, and that the provisions of paragraph (g) of this headnote would give due consideration to such interests, paragraphs (b), (c), (d), and (e) of this headnote shall terminate as of the first day of October following such determinations.</p> <p>(g) If paragraphs (b), (c), (d), and (e) of this headnote are terminated under the provisions of paragraph (f) of this headnote, the total amount of sugars, sirups, and molasses described in items 155.20 and 155.30, the products of all foreign countries, entered, or withdrawn from warehouse for consumption, in any fiscal (October 1-September 30) year shall not exceed, in the aggregate, 6,900,000 short tons, raw value. The U.S. Trade Representative or his designee may allocate this quantity among supplying countries or areas, and may prescribe further rules, regulations, limitations or prohibitions on the entry of sugar in accordance with the International Sugar Agreement, 1977, and Public Law 96-236. The U.S. Trade Representative or his designee shall inform the Commissioner of Customs of any such action regarding the importation of sugar, and shall publish notice thereof in the <u>Federal Register</u>.</p> <p>(h) For the purposes of this headnote, the term "<u>raw value</u>" means the equivalent of such articles in terms of ordinary commercial raw sugar testing 96 degrees by the polariscope as determined in accordance with regulations issued by the Secretary of the Treasury. Such regulations may, among other things, provide:</p> <p>(1) for the entry of such articles pending a final determination of polarity; and (2) that positive or negative adjustments for differences in preliminary and final raw values be made in the same or succeeding quota periods. The principal grades and types of sugar shall be translated into terms of raw value in the following manner:</p>

In promulgating such regulations, the Secretary shall give due consideration to the interests in the U.S. sugar market of domestic producers and materially affected contracting parties to the General Agreement on Tariffs and Trade. 		<p>PART 12. - BEVERAGES</p> <p><u>Part 12 headnotes:</u></p> <p>1. This part covers only products which are fit for use as beverages or for beverage purposes.</p> <p>2. The standard for determining the proof of brandy and other spirits or liquors of any kind when imported is the same as that which is defined in the laws relating to internal revenue. The Secretary of the Treasury, in his discretion, may authorize the ascertainment of the proof of wines, cordials, or other liquors and fruit juices by distillation or otherwise, when it is impracticable to ascertain such proof by the means prescribed by existing law or regulations.</p> <p>3. The duties prescribed on products covered by this part are in addition to the internal-revenue taxes imposed under existing law or any subsequent Act. The duties imposed on products covered by this part which are subject also to internal-revenue taxes are imposed only on the quantities subject to such taxes; except that, in the case of distilled spirits transferred to the bonded premises of a distilled spirits plant under the provisions of section 5232 of the Internal Revenue Code of 1954, the duties are imposed on the quantity withdrawn from customs custody.</p> <p>4. Provisions for the free entry of certain samples of alcoholic beverages are covered by part 5 of schedule 8.</p> <p style="text-align: center;">-----</p> <p>Subpart A. - Fruit Juices</p> <p><u>Subpart A headnotes:</u></p> <p>1. The products described in this subpart are covered herein whether or not containing ethyl alcohol, but any such products which are also described in subpart C or D of this part are classifiable in said subpart C or D.</p> <p>2. For the purposes of this subpart, a concentrated juice may be in liquid, powdered, or solid form.</p>

		<p>3. For the purposes of this subpart --</p> <p>(a) the term "gallon" in the "Rates of Duty" column of the provisions applicable to fruit juices means gallon of natural unconcentrated juice or gallon of reconstituted juice;</p> <p>(b) the term "reconstituted juice" means the product which can be obtained by mixing the imported concentrate with water in such proportion that the product will have a Brix value equal to that found by the Secretary of the Treasury from time to time to be the average Brix value of like natural unconcentrated juice in the trade and commerce of the United States; and</p> <p>(c) the term "Brix value" means the refractometric sucrose value of the juice, adjusted to compensate for the effect of any added sweetening materials, and thereafter corrected for acid.</p> <p>4. In determining the number of gallons of reconstituted fruit juice which can be obtained from a concentrate, the degree of concentration shall be calculated on a volume basis to the nearest 0.5 degree, as determined by the ratio of the Brix value of the imported concentrated juice to that of the reconstituted juice, corrected for differences of specific gravity of the juices. Any juice having a degree of concentration of less than 1.5 (as determined before correction to the nearest 0.5 degree) shall be regarded as a natural unconcentrated juice.</p> <p>5. In determining the degree of concentration of mixed fruit juices (item 165.65), the mixture shall be considered as being wholly of the component juice having the lowest Brix value.</p> <p><u>Subpart A statistical headnote:</u></p> <p>1.
