Footnotes

The Angeles National Forest has produced a final Motor Vehicle Use Map (MVUM) for the existing designated system.

The Cleveland National Forest completed an Environmental Assessment (EA) for limited changes to the existing designated system and issued a finding of no significant impact (FONSI).

The Lake Tahoe Basin Management Unit has produced a final MVUM for the existing designated system.

The Los Padres National Forest produced final MVUM for the Santa Barbara, Ojai and Monterey Ranger Districts. Work is in progress on a Mixed Use Analysis for the Mt. Pinos and Santa Lucia Ranger Districts.

The Mendocino National Forest has produced a final MVUM for the existing designated system.

The San Bernardino National Forest has completed an EA document for limited changes to its existing designated system and will be releasing a decision notice shortly.

¹The Humboldt-Toiyabe is preparing an EIS for the Bridgeport Ranger District and an EA for the Carson Ranger District

²The Smith River National Recreation Area Travel Management EA document is under appeal. The Orleans Ranger District is working on the MVUM

³The Stanislaus National Forest is producing a MVUM for the existing designated system in the Summit Ranger District
