SBA is authorized to issue bond guarantees to surety companies for construction, service, and supply contracts that do not exceed \$2,000,000 and to reimburse these sureties

up to 90 percent of the losses sustained if the contractor defaults. SBA's guarantees provide an incentive for sureties to issue bonds to small contractors who could not otherwise secure them and compete in the contracting industry.

In 2008, the Budget proposes a \$1.7 billion program level that is anticipated to be sufficient to accommodate program demand.

As required by the Federal Credit Reform Act of 1990, as amended, this account records, for this program, the subsidy costs associated with the direct loans obligated and loan guarantees committed in 1992 and beyond (including modifications of direct loans or loan guarantees that resulted from obligations or commitments in any year), as well as administrative expenses of this program. The subsidy amounts are estimated on a present value basis; the administrative expenses are estimated on a cash basis.

For 2008, the Budget proposes \$135.4 million in new budget authority for the Business Loans Program account. These funds will cover the administrative costs of SBA's business credit programs. In addition to loan making and servicing costs, SBA will undertake development of a new loan management accounting system which will enable SBA to better monitor and account for business loans. No appropriations are required to cover loan subsidy, as fees are sufficient to offset losses.

The Section 7(a) program provides general business credit assistance. The requested guaranteed loan program level for 2008 is \$17.5 billion. The Section 504 Certified Development Company program is for long-term fixed rate financing and the requested guaranteed loan program level is \$7.5 billion in 2008. The Small Business Investment Company (SBIC) program provides credit to support venture capital investments. The Budget proposes a program level of \$3 billion for SBIC Debentures.

As part of the Secondary Market Guarantee (SMG) Program, SBA's fiscal agent pools the guaranteed portion of 7(a) loans and sells the securities to investors. This mechanism provides liquidity to lenders participating in the 7(a) loan program. For 2008, the Budget proposes a program level of \$12 billion in such securities. Finally, the Budget proposes to build upon the success of the zero-subsidy 7(a) program by making the Microloan program self-financing through modest increases to the interest rates paid by program intermediaries.
