

# **Federal R&D Project Summaries**

## **Descriptions of Federally Funded Research**

- ▶ **Provides single-query searching of research project summaries from nine federal agencies and organizations**
- ▶ **Offers advanced searching by project content, principal investigator, or title**
- ▶ **Groups search results by subtopic or principal investigator to narrow results quickly**
- ▶ **Helps users find current R&D projects across the federal government**

**Developed and maintained by  
Office of Scientific and Technical Information  
([www.osti.gov](http://www.osti.gov))**

# Searchable Databases

## **DoD R&D Descriptive Summaries (RDDS)**

Includes narrative information on DoD research, development, test and evaluation programs and program elements.

## **DOE R&D Project Summaries Database**

Includes projects pertaining to DOE-sponsored activities in basic energy science, physics, biology, fossil energy, environmental management, and energy efficiency and renewable energy.

## **EPA Science Inventory**

Includes EPA project descriptions, products produced, types of peer review, links to related work and contacts for additional information.

## **NASA Research Task Book**

Includes project descriptions, annual research results, research impacts and a listing of publications resulting from specific areas of NASA-funded research.

## **NIH CRISP Database**

Includes federally-funded biomedical research projects conducted at universities, hospitals, and other research institutions that are funded by the National Institutes of Health (NIH) since 2000.

## **NSF Awards Database**

Includes research projects that NSF has funded since 1989 with abstracts that describe the research and names of principal investigators and their institutions.

## **SBA Technology Resources Network (Tech-Net)**

Includes Small Business Innovation Research (SBIR) awards and Small Business Technology Transfer (STTR) awards.

## **Transportation Research in Progress (RiP)**

Includes current or recently completed transportation research projects hosted by the Transportation Research Board (TRB), with the National Academies.

## **USDA Current Research Information System (CRIS)**

Includes ongoing and recently completed research projects in agriculture, food and nutrition, and forestry.
