

*At last, researchers have an easy web tool for searching domestic and foreign research literature.*

[www.etde.org/ETDEWEB](http://www.etde.org/ETDEWEB)

## Access and Users

Energy Technology Data Exchange World Energy Base (ETDEWEB) is a web tool that is free to member countries and approved developing country residents. Users include researchers, policymakers, academicians, information specialists, and private citizens. Take advantage of existing research results today domestically and internationally!

## Key Features

- access to over 4.1 million citations to journal articles, conference papers, gray literature, books, and more
- includes ETDE information exchanged since 1987 and historical information back to 1974 from the Department of Energy (DOE) Office of Scientific and Technical Information (OSTI) Energy Citations database
- direct access to over 240,000, full-text items via the OSTI site, 855,000 DOI links, and access to many more via links around the world
- easy and advanced search modes
- distributed searching and alerts features

## ETDEWEB Contains

- ... information on
  - energy R&D, energy policy, energy conservation
  - environmental impacts of energy production and use, including climate change
  - nuclear, coal, hydrocarbon and renewable energy technologies
  - other energy-related topics

## Use ETDEWEB

- ... to answer science and technology questions
- ... to identify
  - latest developments
  - researchers
  - energy policy documents
  - economic potential
  - current focus areas
  - research published by country
  - and more . . .

## Sponsored by ETDE

... which is a multilateral information exchange program established in 1987 under the auspices of the International Energy Agency (IEA). More than 16 countries share their energy research and technology information through the Energy Database. For more information about ETDE see [www.etde.org](http://www.etde.org).

... which, since its inception, has been managed and operated on behalf of the member countries by:

DOE/OSTI  
 ETDE Operating Agent  
 P.O. Box 62  
 Oak Ridge, TN 37831  
 (865) 576-1272

IP access can be arranged for large corporations or universities through OSTI.

## Feedback/Requests

... should be directed to [etdeweb@osti.gov](mailto:etdeweb@osti.gov).

Product developed and maintained by the Office of Scientific and Technical Information (OSTI)
