Florida Medicare Fraud Hotline Demonstration

Live-read radio PSA (60 seconds):

If you live in Miami-Dade, Broward or Palm Beach County, here is an important message for you from Medicare.

Fraud costs Medicare billions of dollars every year. Fraud can happen when Medicare gets billed for items or services that you didn't receive. Or it can happen when someone pretending to be a doctor bills Medicare using your Medicare number without your knowledge.

You can take action and help stop Medicare fraud by checking your Medicare statements to make sure Medicare is not charged for any items or services that you didn't receive.

If you suspect a fraudulent charge on your Medicare statements you should report it by calling Florida's Medicare Fraud Hotline at 1-866-417-2078.

This message brought to you by the US Department of Health and Human Services.
