

Resource Locator

Application: A Free Business Resource Database for MBEs

The RESOURCE LOCATOR is an Internet-based tool that allows Minority Business Enterprises (MBEs) to search for business resources interactively on the Internet. The Resource Locator can help MBEs identify trade associations representing their industries, government licensing and permit offices, management and technical assistance providers, and a host of other resources quickly and efficiently.

The Resource Locator will help you find organizations that specialize in starting, operating and expanding a business. We add new resources and update information weekly so come back and visit us periodically.

To get started, you would simply select the state(s), city(s) and type of service(s) you wish to search, and your results page will return MBE listings matching your criteria.
