Mexico Emissions Inventory Program - Background/Overview

The following emission inventory publications were prepared for the Western Governors' Association and the Binational Advisory Committee by Radian International LLC as support to the Mexico Emissions Inventory Program:

Methods Evaluation and Proposal

Implementation Plan

Lessons Learned from the Application in the City of Mexicali

Six (6) Technical Volumes Presenting the Fundamentals of Emission Inventory Development--Volumes II, III, IV, V, VI, and VIII

Advanced Training Workbook

Preliminary versions of several of these publications have been available on this page since March 1999. The updated (final) versions of these publications are available in the Adobe Acrobat (PDF) file format.

Please refer to README files 1, 2 and 3 for descriptions of particular publications.
