

Lower Shore Private Industry Council, Inc. Workforce Investment Board

Workforce Scan Survey

The Lower Shore Workforce Investment Board is in the process of gathering information from businesses in the following industries: technology, tourism, health care, construction, and agriculture/environmental. These industries have been targeted due to the critical skills shortages they have experienced in our region. In order to meet the needs of the businesses in our area we need your assistance.

Enclosed is a survey that will assist us in verifying the skill shortages, and other critical workforce needs you may be experiencing. The findings from this survey will be combined with the data collected from other data collection sources to provide the Lower Shore Workforce Investment Board with valid data to:

- Increase training opportunities in critical skill areas
- Aggressively promote employment opportunities to job seekers
- Customize our services to meet your specific needs
- Provide statistically valid data to education/training institutions for skill development

Please return the completed survey to Melanie Pursel at the Lower Shore Workforce Investment Board by April 26, 2002. If you have questions about any of the information on the survey or would like a copy of the completed report, please contact Melanie Pursel at 410-632-3300 or email melanie@lowershore.org.

This Workforce Scan was made possible through a grant from the Department of Labor and the Governor's Workforce Investment Board. Thank you for your commitment to workforce development in the Lower Shore.

Sincerely,

Robert G. Corbin, Jr. (B.J.)
Executive Director
