Re: 16 CFR Part 460
Trade Regulation

Sir,

I request the following change to the above rule:

ASTM C-236 is referenced in this rule, this ASTM tells you how to build a Guard Hot Box.

I request that Mult-layer foil not glue each piece to each other, but with studs at varying widths or clearly label there materials to fit only in 14½ and 22½ width cavities only and tested at such.

Thank You,

Adrian D. Troutman Jr.
