SECRETARY

7/14/97

230

Dear Mr. Secretary,
I'll be brief. The "Made in the USA" label can only mean one thing. A product made of American Parts assembled by American workers. No exceptions!

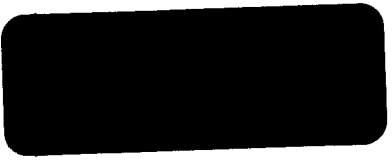

I realize that the American Corporations want it all, and in the past my government has been only too happy to help them out, but this attempt at corporate deception cannot and will not be tolerated.

I expect you and your department to prevent this latest corporate attempt to lie to the American consumer

Thank you

Paul J. Shorhan
