Federal Trade Commission
Washington, D.C. 20580

Dear Board Members:

Re: Made in America Label.

A comment regarding the
"Made in America Label." We feel
and strongly believe it should
mean exactly what it infers -
100% parts and made and assembled
in this country.

The "Made in America" Label
represents the United States and
its citizens, thus is extremely
valuable to those it represents!

Don't cheapen this concept,
country and its people by
misrepresenting us.

Sincerely,

Grant and Janice Pepin
