FTC.

I am not surprised by the way your department works. I am not surprised by what any politician or government office does. What does surprised me is that we STILL HAVE A COUNTRY. For what this is worth. And I know we citizens don't mean a "##%_& thing to you people on the government payroll, I want you to know I don't think a hell of a lot of this idea of yours that if 75% of something made in the USA ...it will be labeled "MADE IN AMERICA." THAT IS "##%_& ...THE LABEL should STATE 75% was made in AMERICA. Why don't you people in Washington LEARN NOW TO TELL THE TRUTH FOR ONCE? I AM AGAINST THIS KIND OF CRAP YOU PEOPLE HAND OUT.

A Citizen
James MILLER
