Mr. Donald Clark  
 Secretary Federal Trade Commission  
 6th St. Pennsylvania Ave. N.W.  
 Room 172  
 Washington, D.C.

Dear Mr. Clark: -

I am outraged and disgusted that the FTC would even consider a "Made in USA" label for products only partially made here!

I, for one and all of my family and friends look high and low for this label which is also a source of pride for Americans.

When I finally locate a product made here I want it totally made here! Not in Thailand, China, Hong Kong, Bangkok or Mexico but here in OUR COUNTRY.

China alone is killing us. Everything from nuts & bolts to clothes, tires, shoes and on and on is made in China. At least the label says so and I, for one choose not to buy it. We are effectively putting more and more of our workers out of the job market.

This would be the last straw. I want you to know a lot of Americans look, sometimes in vain, for this label and it should mean exactly what it says MADE IN USA.

Sincerely  
 Mrs. M. D'Amico

P.S. My husband, son, daughter and son-in-law whole heartedly support the above view as well.
