CHANGE IN N.A.F.T.A POLICY

Comparative that no rule change concerning
the label "MADE IN U.S.A." I buy
only items stating such whenever possible.
I also try to influence others to buy the same.
We need jobs to stay in the U.S. and
the products must remain 98% "MADE IN USA"
NOT 1% less!!!

COMPANIES OUTSIDE U.S. want this change
to increase their profits using slave labor
and give U.S. citizens cheaper quality products
at inflated prices. How can U.S. citizens
purchase products with no jobs? We must
eliminate N.A.F.T.A entirely. If there are no
assembly factories in Mexico, selling
products duty free into U.S.

Do you FULL COMPATIBLE? **MADE IN USA**
