Re: Made in USA labels

I want to emphatically say - DO NOT change current labeling laws regarding made in U.S.A. I only buy made in USA products. I do not want to be frauded by a label change that allows that terminology to be used when the product's materials, components etc are made in Taiwan, Hong Kong, Mexico, Malasia etc etc and then screwdrived together here. If it ain't all made here then don't allow companies to lie to us.

Sincerely
Joe Novelli
