Re: 16 CFR Part 303 – Textile Rule 8, Mohawk, DuPont, and PTT Canada Comment Matter
No. P074201

To Whom It May Concern:

As president of Cumorah, Inc. dba Professional Carpet Systems I wanted to take this opportunity to address an issue concerning PTT fibers. We have been in business for 20 years selling and installing carpet and have seen many changes in the industry. I have had the chance to test PTT fibers and have been impressed with the way that they perform. We have sold & installed SmartStrand carpet over the past year or so, with very positive results from our customers.

The problem that we do encounter is the stigma that surrounds the polyester label that has been placed on this product. Customers have a pre-conceived notion about polyester fibers and at times tend to steer clear of this product just because of that label. I feel that this makes a more difficult sales process for us, and is also unfair to the product.

Based on the tests that we have done, and the response that we have received from the customers that have purchased a PTT fiber product, we feel that it should carry a label different from PET, since it is obviously a different product and performs and wears much better than PET.

Thank you for the opportunity to address this issue. Please feel free to contact me if you would like any more information from me.

Sincerely,

Jeffrey D. Long
President
