

HTTP End User Screen Shots

Guidance Only

Some screens (i.e. mailbox) names will appear differently in production mode. For example, Marx or Plan enrollment mailboxes will be configured by Contract Number.

End User will only see mailboxes for which they have been granted access.

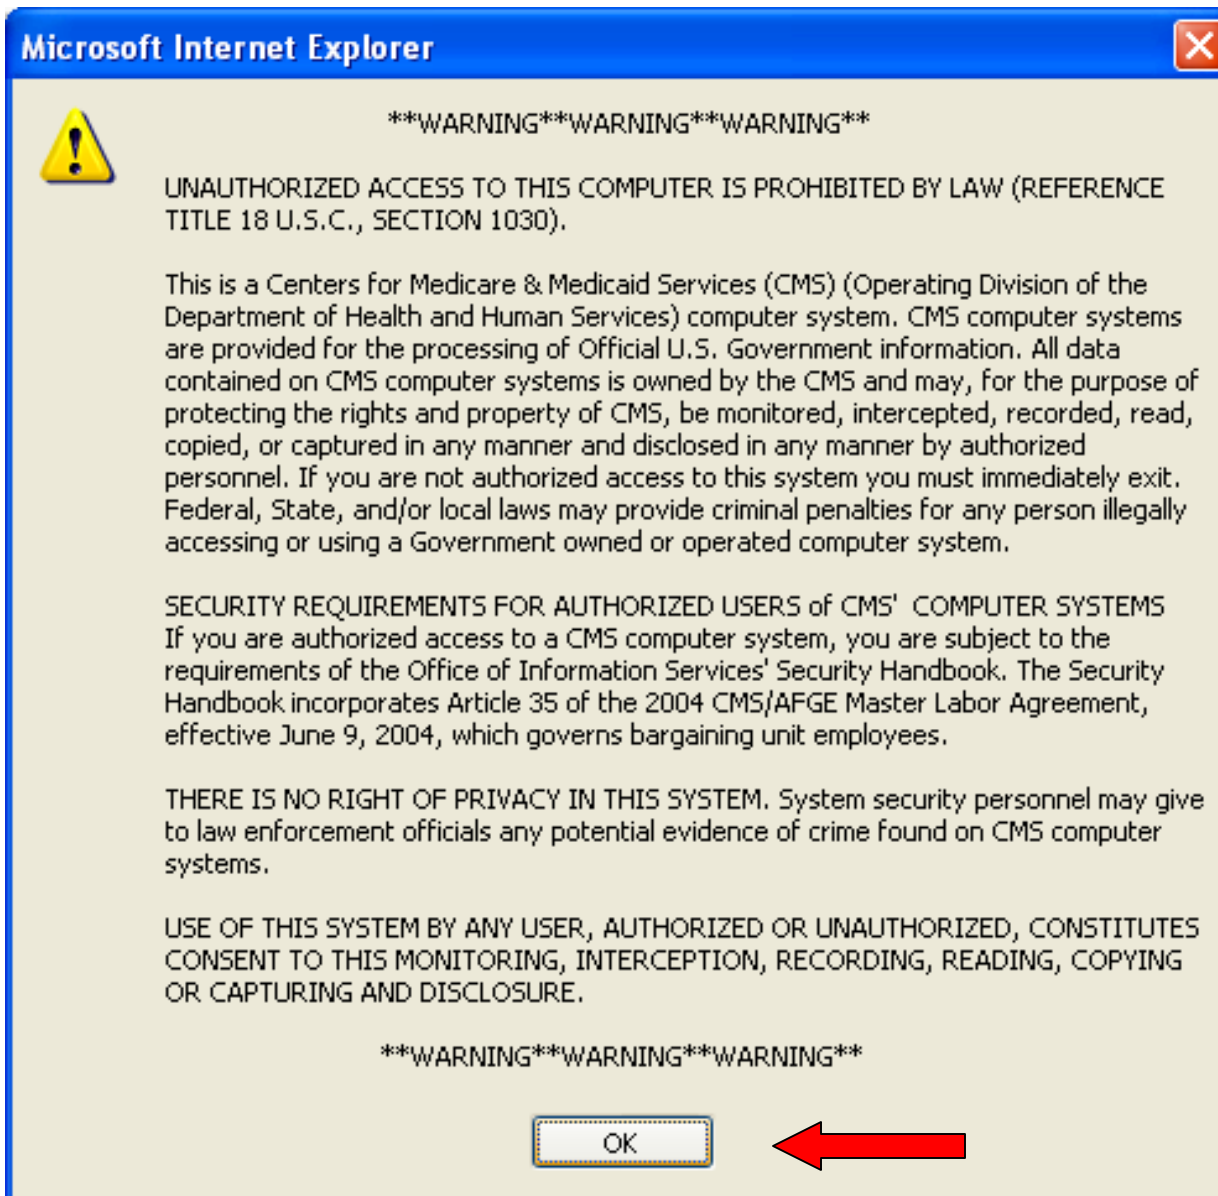

1 - Enter WEB site provided by CMS

Internet – <https://gis.cms.hhs.gov:3443/mailbox>

Extranet – <https://gis.cmsnet:3443/mailbox>

2 – Click ‘GO’

Review Warning Information, then click 'OK' button

Security Alert

Information you exchange with this site cannot be viewed or changed by others. However, there is a problem with the site's security certificate.

The security certificate is from a trusted certifying authority.

Certificate Example Only

The security certificate date is valid.

The name on the security certificate is invalid or does not match the name of the site

Do you want to proceed?

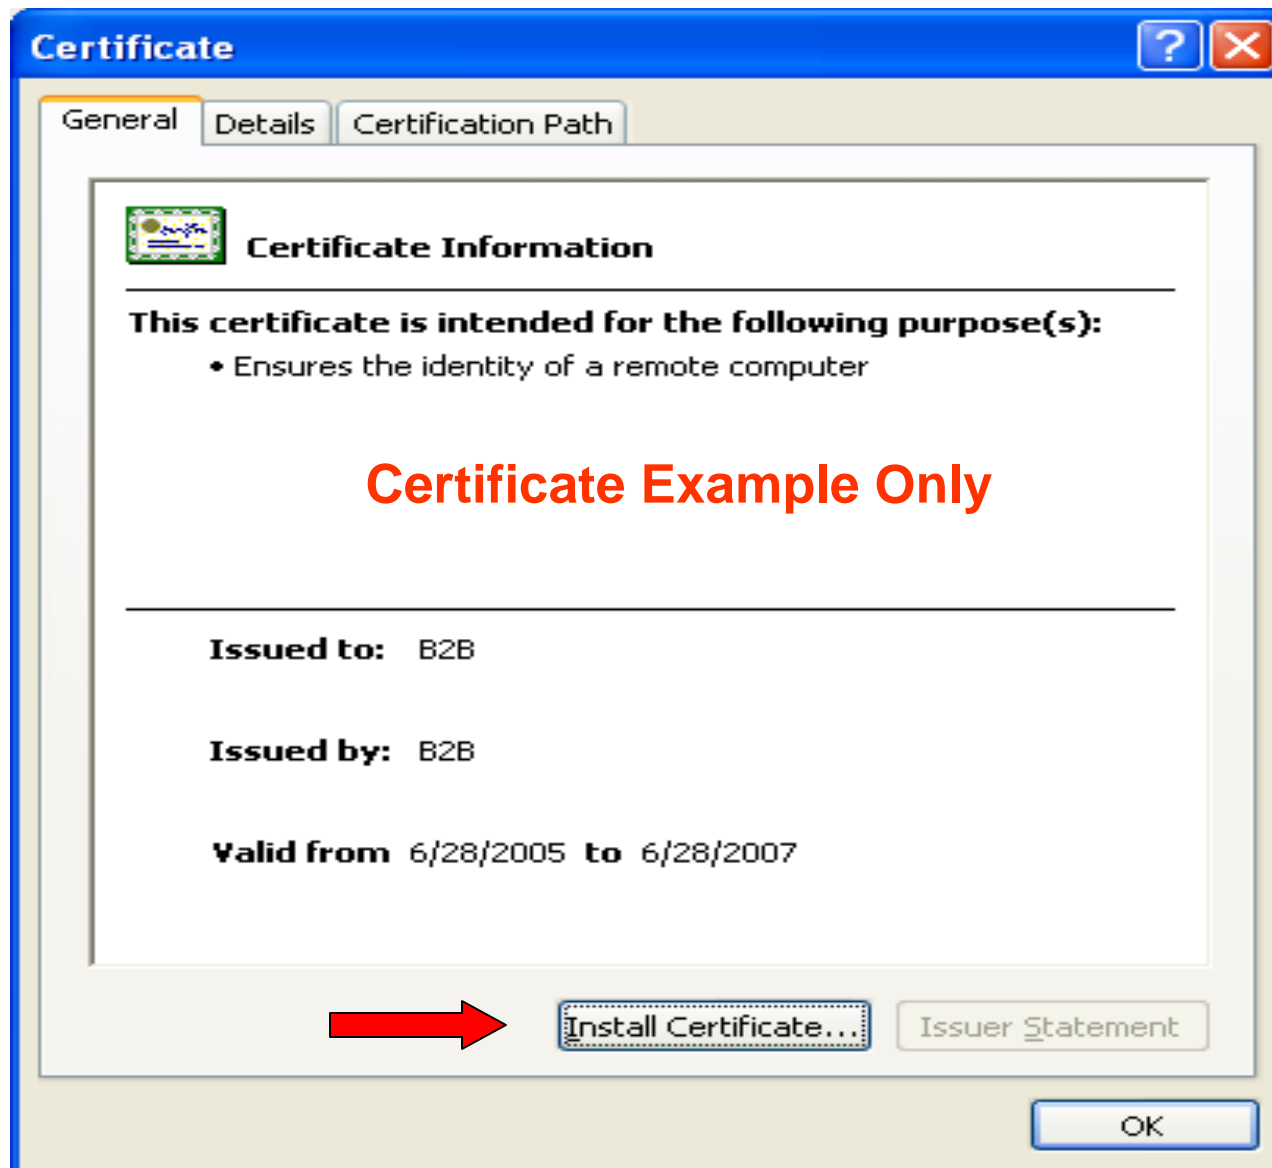

Yes

No

View Certificate

Click the 'View Certificate' button.

Click 'Install Certificate...' button

Certificate Import Wizard

Welcome to the Certificate Import Wizard

This wizard helps you copy certificates, certificate trust lists, and certificate revocation lists from your disk to a certificate store.

A certificate, which is issued by a certification authority, is a confirmation of your identity and contains information used to protect data or to establish secure network connections. A certificate store is the system area where certificates are kept.

To continue, click Next.
