Office of the Secretary  
Federal Trade Commission, Room 159  
Sixth and Pennsylvania Ave., N.W.

Gentlemen:

As a citizen of the United States and a retired Federal employee with 30 years of service, I am opposed to the proposal being considered to lower the standard of our "Made in USA" label.

Please protect the consumers and jobs in our great country and keep the present standard as it is written.

Respectfully,  
Frances Stewart
