Re: Made in America

Sir: OFFICE OF THE CHAIRMAN

It is my understanding that you want to reduce the made-in-America content of goods so labelled & sold here in the USA.

I am writing to ask you & the FTC to withdraw this requirement or rather proposed change in the trade practices. I am against it and so is my wife.

I think "made in America" should mean just that like it does now. If vendors want to sell goods with lots of foreign origin stuff, let them say so. But do not degrade goods that are truly made in America by letting things not meeting that requirement carry the same label. Such is not fair to American labor, nor American consumers.

Please withdraw your proposal.

Respectfully
Daniel P. Worth
