Dear Sir :

In regard to Labeled In USA on products. I do not agree with lowing our standards. I think if a Label sav's made in USA it should be regarded (as it used to be) the best of any product any Nation could purchased.

I think it is a crime that we have lowered our standards on many products. a crime to the USA Citizen so please don't get on the band wagon and keep selling our country or giving it away.

I think of the men and women who fought for our way of life and many died for what they believed in. I wonder what these same men and women would think today.?

Sincerely,

Bert E. Raean
