

New Reactor Licensing Applications

Schedules by Calendar Year

2003 2004 2005 2006 2007 2008 2009 2010 2011 2012 2013 2014 2015

05/08/09

Schedules depict completion of staff safety and environmental reviews. Issuance of license is dependent upon completion of hearing process as well as design certification rulemaking for the selected design.

NOTE: Schedules depicted for future activities represent nominal assumed review durations based on submittal time frames in letters of intent from prospective applicants. Actual schedules based on schedules shown on NRC public web pages.

Legend

Combined License Received (solid blue bar) Rulemaking / Hearing (purple arrow) Design Certification (solid red bar) Early Site Permit (solid green bar)
 Projected (dashed blue bar) (dashed red bar) (dashed green bar)
