## Petitioning State: Connecticut

**States (or partial states (\*)) found to be contributing to smog problems in Connecticut:**

DC, DE, IN\*, KY\*, MD, MI\*, NC, NJ, NY\*, OH, PA, VA, WV

By removing 510,000 tons of smog-forming pollution in the states listed above, EPA's action attacks the pollution coming from other states that contribute to Connecticut's smog.

The following companies have facilities in the states listed above that EPA determined contribute to Connecticut's smog problems. On the average, these facilities will emit 50% less smog-forming nitrogen oxide because of this action.
