

requirements does not serve the underlying purpose of the rule.

4.0 Conclusion

Accordingly, the Commission has determined that, pursuant to 10 CFR 50.12(a), the exemption is authorized by law, will not present an undue risk to the public health and safety, and is consistent with the common defense and security. Also, special circumstances are present. Therefore, the Commission hereby grants the licensee an exemption from the requirements of 10 CFR part 50, Appendix J, Option B, Section III.B for OCSGS. Specifically, this permanent exemption permits the licensee to perform leakage testing of the MSIVs at reduced pressure, but not lower than 20 psig.

Pursuant to 10 CFR 51.32, the Commission has determined that the granting of this exemption will not have a significant effect on the quality of the human environment (69 FR 63562).

This exemption is effective upon issuance.

NUCLEAR REGULATORY COMMISSION

Extension of Public Comment Period: Louisiana Energy Services National Enrichment Facility

AGENCY: United States Nuclear Regulatory Commission (NRC).

ACTION: Extension of public comment period.

SUMMARY: The NRC is extending the public comment period for the Draft Environmental Impact Statement (DEIS) for the Proposed National Enrichment Facility in Lea County, New Mexico (NUREG-1790) that was to end on November 6, 2004. The original notice of availability of the DEIS appeared in the *Federal Register* on September 17, 2004 (69 FR 56104).

On October 25, 2004, the NRC initiated an additional security review of publicly available documents to ensure that potentially sensitive information is removed from the ADAMS database accessible through the NRC's Web site. Interested members of the public should check the NRC's Web

pages for updates on the availability of documents through the ADAMS system. This extension of the public comment period is appropriate to allow members of the public adequate opportunity to obtain access to relevant documents in ADAMS in order to comment on the DEIS. Therefore, the public comment period is being extended until December 18, 2004.

Members of the public are invited and encouraged to submit comments to the Chief, Rules Review and Directives Branch, Mail Stop T6-D59, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001. Please note Docket No. 70-3103 when submitting comments. Written comments submitted by mail should be postmarked by December 18, 2004, to ensure consideration.
