

RULE 2202 INTERNAL WORKSHEET FOR SCHOOL DISTRICT AND SCHOOL EXEMPTIONS

The purpose of this worksheet is to allow school districts and primary and secondary schools to determine for themselves whether they are exempt from Rule 2202 - On-Road Motor Vehicle Mitigation Options. If you desire to have written confirmation of your exemption, you may (on a voluntary basis) submit this worksheet to your assigned Transportation Specialist.

Section I - General Information

School District or School Name: _____

Street Number (N, S, E, W) Name Type (St., Ave., Blvd.)

Unit/Suite Location/Mailstop

City State Zip Code+4 County (LA, OC, RS, SB)

Mailing Address: (If different from site address) _____

City State Zip Code+4

Section II - School District or School Student Busing Exemption (check box if applicable)

The school district or school indicated above is *exempt* pursuant to Rule 2202 (I)(5). Our school district or school buses at least two (2) students for every one (1) 6 a.m. - 10 a.m. peak window employee at school sites subject to the rule. Documentation verifying this ratio is kept on site.

Section III - School District or School Student Busing Exemption (check box if applicable)

The school district or school indicated above is *requesting exemption* pursuant to Rule 2202 (I)(5)(B). Our school district or school busing program does not meet the 2-to-1 default student-to-employee ratio. Alternatively, as allowed by the rule, we request that the AQMD use our student busing data provided on the reverse side of this form to calculate our school district or school specific target ratio.

Section IV - School District Financial Hardship (check box if applicable)

The school district indicated above is *requesting exemption* pursuant to Rule 2202(I)(6). Our school district has received a Negative or Qualified Certification status from our County Board of Education. We are requesting a temporary exemption for the period during which the Negative or Qualified Certification status applies.

Print Name _____ Title _____

Signature _____ Date _____

Phone Number () _____

RULE 2202 SCHOOL DISTRICT AND SCHOOL STUDENT BUSING DATA*

This data will be used to calculate your actual and your school district/school specific target ratio (of students to employees)

A. Population Data	
1. Name of School District	
2. Total # of Students in School District	
3. Total # of Students Bused in School District	
4. Total # of 6 - 10 a.m. Employees at Rule 2202 Regulated Sites	

B. Bus Information	
1. Total # of Buses/Vehicles Operated by School District and Any Other Providers	
2. % of School District Sites with Busing Program (within AQMD Boundary)	

C. Busing Program			
	Elementary	Middle	High
1. Grade Levels			
2. Total # of Students Serviced			
3. Students Minimum Walking Distance from School (in miles)			
4. The Furthest Bus Stop Distance from School (in miles)			

Programs	Bus Capacity	# of Buses	Fuel Type			# of Bus Runs per Bus per Day	Average Mileage per Bus per Year	Average Bus Occupancy Rate (%)	Total # of Students Serviced per Day
			Diesel	Gasoline	Clean Fuel				
Regular Program									
Special Education Program (if applicable)									

D. Bus Service Providers Information (Including School District and Any Other Providers)		
Name of the Bus Service Providers	Bus Capacity	# of Buses

* Home to School Busing Program Only. Please Do Not Count Spare Buses.
