

## NRC SPECIAL EDITION

### NRC Has Published Draft Updates of NUREG/BR-0006 & 0007 For Public Comment

In the March 21, 2007 Federal Register ([electronic link](#)) the NRC publicized proposed revisions to NUREG/BR-0006 and NUREG/BR-0007 for public comment. Following is a repeat of some of the information contained in this Federal Register.

“The U.S. Nuclear Regulatory Commission (NRC) is proposing revisions to NUREG/BR-0006, [Instructions for the Preparation and Distribution of Material Transaction Reports](#), and NUREG/BR-0007, [Instructions for the Preparation and Distribution of Material Status Reports](#). The purpose of these revisions are to incorporate (1) proposed rule changes for nuclear material reporting requirements, (2) upgrades to the Nuclear Material Management and Safeguards System, and (3) editorial changes. The NRC is seeking comment from interested parties on the clarity of the proposed revisions and will consider the comments received in its final evaluation of the NUREGs. Comments should address the contents of the guidance presented in the NUREGs but not the regulations associated with it.”

The comment period expires April 23, 2007.

This article was prepared by Brian Horn of the Nuclear Regulatory Commission.
