Denver City Center

Overview

The Nuclear Materials Management and Safeguards System (NMMSS) 2009 Users Annual Training Meeting will be held in Denver, Colorado, May 19-21, 2009. The NMMSS serves a critical role in the U.S. Government's ability to maintain operational awareness of the inventory, status, and whereabouts of nuclear materials.

The 2009 meeting is organized and hosted jointly by the Department of Energy (DOE) and the Nuclear Regulatory Commission (NRC). The main objectives of the 2009 meeting are to:

- Present up-to-date information on NMMSS developments and enhancements.
- Discuss regulatory drivers, reporting requirements, and potential impacts on NRC licensees and DOE contractors.
- Provide system training and orientation.
- Facilitate exchange of ideas and solutions to streamline and improve system performance.

For more information about NMMSS please visit <http://www.hss.energy.gov/nmmss>

Registration Information

Please visit <http://www.hss.energy.gov/nmmss/2009nmmss/> for detailed information and instructions for Meeting Registration, Hotel Accommodations, Preliminary Agenda, and others topic of interest. About Denver

With the Rocky Mountains as the backdrop and 300 days of annual sunshine, Denver makes an ideal setting for the 2009 NMMSS meeting. Founded in November 1858 as a mining town, Denver is the capital of the State of Colorado. The downtown district is located approximately 15 miles (24 km) east of the foothills of the Rocky Mountain. Denver's official elevation is exactly one mile, or 5,280 feet (1,609 m) above sea level, hence the nickname the *Mile-High City*.
