ATTN OF: Office of Nuclear and Facility Safety Policy: JYoder:301-903-5650

SUBJECT: Reaffirmation of Two Training Handbooks

TO: George Detsis ;
Technical Standards Manager, EH-24

In accordance with the technical standards program procedures, a reaffirmation notice was coordinated with the DOE technical standards managers to reaffirm the following handbooks:

- DOE-HDBK-1074-95, Alternative Systematic Approaches to Training
- DOE-HDBK-1086-95, Table-Top Training Program Design

The reaffirmation notice was transmitted on January 19, 2001, requesting comments on the continuation of these handbooks.

Comments received agreed with the reaffirmation of each of the handbooks. It is requested that DOE-HDBK-1074-95 be reaffirmed in accordance with the technical standards program procedures (TSPP). One comment was received on DOE-HDBK-1086-95 to delete a canceled reference. Accordingly, this handbook is being reaffirmed with errata in accordance with TSPP-9, paragraph 4.2.3. A copy (hardcopy and diskette) of the errata sheet and the effected pages is attached.

If you have any questions regarding the reaffirmation of these handbooks, please contact John A. Yoder, of my staff, at (301) 903-5650.

Richard L. Black, Director
Office of Nuclear and
Facility Safety Policy
