

Regarding Monthly Registry Access, Project #R411001

As an inside salesperson working at a small group of weekly community newspapers selling classified advertising, largely to private households, I've been extremely inconvenienced by the Do Not Call registry since its beginning, in terms of loss of revenue as well as the extra demands on my at-work time.

The new ruling for monthly updating of the list upsets me even further. I'm thinking it's totally unnecessary and particularly for a small business such as the one that I am employed by, the cost & labour would prove quite harmful to us.

My loss of revenue has been very, very significant and a lot of my call-in customers actually ARE on the registry and I'd never have gotten those accounts if THEY hadn't called ME. I really don't feel newspapers should be considered "telemarketing". Customers sure don't, from what I'm told.

I myself am NOT on the registry & I refuse to change that. I'm not so selfish, spiteful & spoiled that I cause innocent people to lose income, jobs & even their businesses that they've worked hard to build up, just because I'm too much of a princess to be INCONVEEEEEEEENIENCED. Goodness... I thought the powers that be are wanting to IMPROVE the economy.

Thanks for listening.
